Baton Rouge, Louisiana 70804-4275

Re: Stutson A Sand, Reservoir B
Harrisonburg Field
Catahoula Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of Axis Onshore, LP for the calling of a public hearing, after ten (10) days' legal notice, to consider evidence relative to the issuance of an order pertaining to the following matters relating to the Stutson A Sand. Reservoir B. in the HARRISONBURG FIELD, Catahoula Parish, Louisiana, to-wit:

1. To permit the Applicant to designate and utilize the Axis Onshore, LP – Barron A-3 Well, at the location shown on the attached plat, as a substitute unit well for the said Stutson A Sand, Reservoir B, Sand Unit C, in exception to the well spacing provisions of Office of Conservation Order No. 328-A, effective February 1, 1964.

2. To continue in effect the units created by Order No. 328-A, effective February 1, 1964, and all pertinent provisions thereof.

3. To consider such other matters as may be pertinent to the Stutson A Sand, Reservoir B, in the HARRISONBURG FIELD, Catahoula Parish, Louisiana.

The Stutson A Sand, Reservoir B, in the Harrisonburg Field, Catahoula Parish, Louisiana, was previously defined in Order No. 328-A, effective February 1, 1964.

This will advise that said unit is currently non-productive, since both the original unit well and the prior substitute unit well have ceased to produce and have been plugged and abandoned. In the interest of good conservation practices, the Axis Onshore, LP – Barron A-3 Well should be designated to take the place of and become the unit well for the Stutson A Sand, Reservoir B. The designation of the well as a substitute unit well is necessary and in the interest of conservation to efficiently and economically drain a portion of the Stutson A Sand, Reservoir B which cannot be efficiently and economically drained by any existing well within such unit.

Inasmuch as the bottomhole location of the proposed substitute unit well is less than three hundred thirty (330') feet from a "property" (or unit) line, a public hearing is necessary to consider this proposal.

The Rules of Procedure of the Commissioner of Conservation pertaining to pre-application notice requirements are not applicable to the hearing requested herein, which requires legal notice of only ten (10) days.

In support of this application, we enclose herewith a plat of the referenced unit showing the location of the original unit well, the prior substitute unit well and the proposed substitute unit well for the Stutson A Sand, Reservoir B. Also enclosed herewith to the Commissioner of Conservation and District Manager is a list of the names and addresses of the Interested Owners, Represented Parties and Interested Parties to whom a copy of this notice is being sent. A reasonable effort has been made to ascertain the names and addresses of all Interested Owners, Represented Parties and Interested Parties. In addition, enclosed herewith is our check payable to the Office of Conservation in the amount of $755.00, in payment of the required hearing application fee.

Very truly yours,

OTTINGER HEBERT, L.L.C.

Patrick S. Ottinger
