Re: 14,000' Zone, Reservoir A
BAYOU CROOK CHENE FIELD
St. Martin Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **FORZA OPERATING, LLC** for the calling of a public hearing, after legal notice, to consider evidence relative to the issuance of an order pertaining to the following matters relating to the 14,000' Zone, Reservoir A, in the Bayou Crook Chene Field, St. Martin Parish, Louisiana:

1. To establish rules and regulations and to create a single drilling and production unit for the exploration for and production of gas and condensate from the 14,000' Zone, Reservoir A, in the Bayou Crook Chene Field, St. Martin Parish, Louisiana, said proposed unit to be designated 14000 RA SUA, as shown on the plat attached hereto and made a part hereof;

2. To force pool and integrate all separately owned tracts, mineral leases and other property interests within the proposed unit with each tract sharing in unit production on a surface acreage basis of participation;

3. To provide that any wells drilled to the 14,000' Zone, Reservoir A, within or outside of the unit created herein, should be located in accordance with the spacing provisions of LAC 43:XIX.1901 et seq. (Statewide Order No. 29-E);

4. To allow the Commissioner of Conservation to reclassify the reservoir by supplemental order, without the necessity of a public hearing, should the producing characteristics of the reservoir change and evidence to justify such reclassification is submitted to and accepted by the Commissioner of Conservation; and

5. To consider such other matters as may be pertinent to the 14,000' Zone, Reservoir A.

The 14,000' Zone, Reservoir A, in the Bayou Crook Chene Field, St. Martin Parish, Louisiana, is hereby defined as being that gas and condensate bearing zone encountered between the depths of 12,980 feet and 15,220 feet (electrical log measurements) in the Campbell Energy Corporation – Case-Kurzweg No. 1 Well, located in Section 2, Township 11 South, Range 9 East, St. Martin Parish, Louisiana.

Pertinent data, including well logs, not available from the Office of Conservation may be obtained **AT THE COST OF THE REQUESTING PARTY** from James F. Hardwick & Associates, 1101 S. Hugh Wallis Road, Suite 101, Lafayette, Louisiana 70508, Telephone Number (337) 232-7756.

Pursuant to the Rules of Procedure, a pre-application conference was held in Lafayette, Louisiana on July 18, 2008, at which the parties named on the attached list were in attendance. The conference was opened by Mr. James F. Hardwick on behalf of the applicant who explained the bases for the unit being proposed. Questions were asked and answered. Mr. Doffie Ross on behalf of Jeanerette Lumber & Shingle Co., LLC presented a counterplan which differed from the applicant's proposal in the placement of the northern and eastern unit boundaries. The conference was then adjourned. The applicant has since resolved differences with the only party which presented a counterplan. Therefore, we do not anticipate opposition at the hearing to be scheduled in this matter. The compromise proposal is shown on the attached plat.

Attached hereto and made a part hereof are a plat outlining the applicant's proposal, the conference attendance list and a list of the names and addresses of the Interested Owners, Represented Parties, and Interested Parties to whom a copy of this application is being mailed. Pursuant to the Revised Rules of Procedure, the list of parties is being furnished only to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation; however, the list of parties will be furnished to any party requesting a copy. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Represented Parties, and Interested Parties. Also enclosed is a check made payable to the Office of Conservation submitted on behalf of the applicant, representing the required hearing application fee.

Very truly yours,

Travis A. Helms
