5. To provide that the unit allowable for JETER SU61, may be produced from either the unit well, the alternate unit well, or any combination thereof, at the operator's discretion.

6. To force pool and integrate all separately owned tracts, mineral leases, and other property interests within the existing drilling and production unit designated as JETER SU61, with allocation of production from the tracts within said unit to be on the basis of surface acreage participation.

7. To confirm and continue JETER SU61 in full force and effect.

8. Except to the extent contrary herewith, to provide that the provisions of Office of Conservation Order No. 28-C, effective February 20, 1942, as amended and supplemented by the 28-C Series of Orders, and any applicable Statewide Orders, shall remain in full force and effect.

9. To consider such other matters and issue such orders as may be appropriate and justified by the evidence presented at the hearing.
