March 12, 2010

Honorable James H. Welsh
Commissioner of Conservation
Office of Conservation
Post Office Box 94275
Baton Rouge, LA 70804-4275

Re: 9800' Zone, Reservoir B
East Moss Lake Field
Calcasieu Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **JORDAN OIL COMPANY**, for the calling of a public hearing, after legal notice, to consider evidence relative to the issuance of an order pertaining to the following matters relating to the 9800' Zone, Reservoir B, in the East Moss Lake Field, Calcasieu Parish, Louisiana:

1. To establish rules and regulations governing the exploration for and production of gas and condensate from the 9800' Zone, Reservoir B in the East Moss Lake Field, Calcasieu Parish, Louisiana;

2. To create a single drilling and production unit for the 9800'Zone, Reservoir B, designated 9800 RB SUA as shown on the plat attached hereto and made a part hereof;

3. To force pool and integrate all separately owned tracts, mineral leases and other property interests within the unit so created with each tract sharing in unit production on a surface acreage basis of participation;

4. To designate Jordan Oil Company as operator of the proposed 9800 RB SUA and their Reynolds Metals No. 1 Well as the unit well;

5. To provide that any wells drilled to the above mentioned zone, within or outside of the proposed unit, should be located in accordance with the spacing provisions of LAC 43:XIX.1901, et seq. (Statewide Order No. 29-E);

6. To allow the Commissioner of Conservation to reclassify the reservoir by supplemental order, without the necessity of a public hearing, should the producing characteristics of the reservoir change and evidence to justify such reclassification is submitted to and accepted by the Commissioner of Conservation; and

7. To consider such other matters as may be pertinent to the 9800' Zone, Reservoir B.

The 9800' Zone in the East Moss Lake Field, Calcasieu Parish, Louisiana was previously defined in Order 102-S. Reservoir B is hereby further defined as being that gas and condensate bearing zone encountered between the electrical log measured depths of 9,270 feet (9,114 TVD) and 11,072 feet (10,524 TVD) in the –Jordan Oil Company –Reynolds Metals (Bergstedt-Kuttner) No. 1 Well, located in Section 9, Township 11 South, Range 9 West, Jefferson Davis Parish, Louisiana.

In compliance with the Rules of Procedure for Conducting Hearings Before the Commissioner of Conservation pre-application conference was held in Lafayette, Louisiana on Thursday, March 11, 2010. Attached hereto and made a part hereof is a list of the names and addresses of the parties who were in attendance at the conference

The conference was opened by James F. Hardwick who presented the basis of the applicant's proposal. Numerous questions were asked and answered. Four geographic counterplans were shown and all plans agreed with the placement of the north and south boundaries of the applicant. A counterplan of +/-198 acres was presented by Mr. Remy Williams, representing Warshaw, et al, which removed acreage from the west side of the applicant's proposal, relying on a previous adopted fault orientation and used a different placement of the east line resulting in a parallelogram. A counterplan of +/- 200 acres was presented by Mr. Braden Despot, representing Prairie Land Company, which again used previously recognized faulting as a basis to delete acreage from the west side of the applicant's proposal. A counterplan of +/- 209 acres was presented by Mr. Doffie Ross, representing the Bergstedt family, which was supported by fault planes and new fault cuts to remove acreage from west side of the applicant's proposal and used a parallel eastern boundary which again resulted in a parallelogram. Finally, a counterplan of +/-201 acres was presented by Mr. Don Muth, representing Reynolds Metals Company which removed acreage from the east side of the unit. A resolution of differences was rigorously attempted but not accomplished and accordingly opposition is expected at the hearing.

Attached hereto and made a part hereof is a plat outlining the applicant's proposal, along with a list of the names and addresses of the Interested Owners, Represented Parties, and Interested Parties to whom a copy of this application notice is being mailed. Pursuant to the Revised Rules of Procedure, such list of parties is being furnished only to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation; however, the list of parties will be furnished to any party requesting copies. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Represented Parties and Interested Parties. Finally, enclosed is a check on behalf of the applicant, made payable to the Office of Conservation, representing the required hearing application fee.

Very truly yours,

James F. Hardwick
