Dear Sir:

Chevron U.S.A. Inc. requests the calling of a public hearing, after due legal notice, to consider the following matters pertaining to the 3A Sand, Fault Block E, in the West Bay Field, Plaquemines Parish, Louisiana:

1. To dissolve the WB 3A FBE SU created by Order No. 396-K-1, effective February 1, 1965, and simultaneously create a revised reservoir wide unit for the 3A Sand, Fault Block E;

2. To establish rules and regulations governing the exploration for and production of oil and gas from the 3A Sand, Fault Block E;

3. To force pool and integrate all separately owned tracts and mineral leases, and other mineral interests within the unit, and to provide that unit production be shared in the proportion that the number of surface acres underlying each tract bears to the total number of surface acres underlying the entire unit;

4. To designate the Chevron U.S.A. Inc. (LLOG Exploration Company, LLC) – SL 451 Well No. 7 (SL 451 No. 2) as the unit well and the SL 451 Well No. 8 (BLD "E" No. 2) as the second unit well for the revised WB 3A FBE SU;

5. To designate Chevron U.S.A. as the Operator of the revised WB 3A FBE SU;

6. To provide that any future replacement and/or alternate wells for said unit shall be exempt from the spacing provisions of Statewide Order No. 29-E;

7. To provide for future reclassification of the reservoir without the necessity of a public hearing if such reclassification becomes necessary due to a change in production characteristics;

8. To consider other such matters that the Commissioner may deem pertinent.

The 3A Sand, Fault Block E, in the West Bay Field is fully defined by Conservation Order No. 396-K-1, effective February 1, 1965.

Chevron will provide for the advertisement of the legal notice in a newspaper of general circulation in the vicinity of the West Bay Field, and also will post the legal notice and unit plat in a prominent place in the area of the field.
