<u>OXY-GEISMAR WATER WELL #3</u>			<u>SINKHOLE</u>			
Flowing or Locked-Out:			Cumulative Vegetation Hauled Off: _____ loads of 25-yd roll off boxes Cumulative Oil Hauled Off: _____ bbls			
<u>Remarks:</u>	<u>Locked-Out</u>		<u>Remarks:</u>	hydrocarbon sheen visible on southeast corner of sinkhole, seemed to be flowing in from beyond the sinkhole within the swamp vegetation. No noticeable bubbling but could be indicative of that edge of well pad 3 sloughing further down. Booms in place.		
<u>ADDITIONAL REMARKS:</u>						
No activity on the sinkhole while on the well pad, rolloff box in place, but airboats were making their way back towards it as I was leaving.
