OXY-GEISMAR WATER WELL #3			SINKHOLE			
Flowing or Locked-Out:			Cumulative Vegetation Hauled Off: _____ loads of 25-yd roll off boxes			
			Cumulative Oil Hauled Off: _____ bbls			
Remarks:	Locked-Out		Remarks:	No removal activities occurring besides visual monitoring of the levee breaches		
ADDITIONAL REMARKS:						
<p>PFD is now required for access to the restricted area of Well Pad #3. At least two breaches on Rig Road, one between the #5 and #7, another between the #7 and #8. Bayou/swamp water was seen flowing swiftly across the breached sections into the containment area. Water level of the sinkhole has risen dramatically over the past several hours, expected to equalize later today, not counting what additional water comes down from locations upstream. Major rain event this morning. Another considerate rain event expected tonight/tomorrow morning.</p>
