	<u>Shut-In/Flowing</u>	<u>Tbg Pressure (psig)</u>	<u>Choke (/64")</u>	<u>Notes</u>
ORW #38R	Shut-In	0		Pipe guard installed around flowline connection near roadway.
ORW #39	Flowing	31	1	
ORW #40	Flowing	27	1	
OGRW#1	Flowing	57.5	4.5	
	<u>Shut-In/Flowing (if applicable)</u>	<u>Tbg Pressure (psig)</u>	<u>Csg Pressure (psig)</u>	<u>Notes</u>
G-1	Shut-In	-	179	
OG #3-A	Shut-In	604	613	Up about 9psi from yesterday. Tagged cavern yesterday.
OG #1	Cavern	124.23	245.4	
TBC #1	Plugged			Well Plugged
TBC #2	Plugged			Well Plugged
TBC #3	Shut-In	0	0	
BC-2	Shut-In	53.5	20	Locked & Secured
<u>OG Water Well #3</u>			<u>Sinkhole</u>	
Flowing or Locked-Out?			Cumulative Vegetation Hauled Off: _____ loads of 25-yd roll off boxes	
Locked-Out _____			Cumulative Oil Hauled Off: _____ bbls	
Notes:				Notes: No removal activities today.
<u>Additional Remarks</u>				
Sinkhole activity yesterday: burped up new amounts of hydrocarbons and debris. Significant water movement within the sinkhole during event. Continuing attempts by the parish OEP to measure depth of latest fissure within the sinkhole (the bottom of the upside witchhat). A new 750' measuring tool was still inadequate to measure. Consistent bubbling just north of Well Pad 3. Continued work on laying gravel along the western berm road between the ORW 9 and ORW 5. Removed boards in front of ORW 9.
