Bayou Corne Emergency Project

0800 Crosstex has their pipeline depleted down to 400# from 800# yesterday - Acadian Gas has their two pipelines about halve way depleted -- Florida Gas has one section down still depleting down another section of line -- All Pipeline Co.'s maybe down about the same time this afternoon -- At that time the roads should be reopened for through traffic --

0900 Flew over the slurry area and it didn't appear to have changed any -- Will forward pictures by E-Mail -- Mr. Angele is on location again today --

Hwy 70 will be closed until Midnight tonight (If everything goes as planned) then traffic can pass through - Not all of the pipeline Co.'s were able to depressurize at the same time -- At 1600 today, Florida Gas have both of their lines flat at this time -- Still waiting on Acadian Gas and Crosstex -- Bubbles in the Bayou Corne canal is still bubbling the same --

Michael Theriot

7:00 am to 10:00 pm = 14.5 Hrs Over

1/2 hr off for Dinner

Total Hrs = 14.5 Hrs
