Activities

Operational Period Report Date	02/04/13 06:00 – 02/05/13 06:00
Current Status of Operation or Activity	<ul style="list-style-type: none">- Continuing Normal Operations- Normal operations include operating 4 permitted flares. Flows to these flares are dependent on the equipment in operation at the time. Starting and stopping some equipment including pumps and compressors have an effect on flare flows.- Work to replace the south field flare continues. This is the flare located south of the GBO Control Room. The new flare is in place. This job should be completed by February 13th and be performed by a construction contractor.- Dow 8/8A wellheads to replace wellhead bolts and to recoat wellhead ground to air interface.- Fabricator working on V-20 top replacement. Work will continue once received. Scheduled to be delivered Monday 2/4/13.- Work to begin to setup for de-pressuring UCAR 2 well. During this operation brine will be de-pressured from this inactive well into tank trucks and trucked to the tank. This down approximately every 2 months to maintain a target pressure in the well.

	<ul style="list-style-type: none"> - Water to Chevron for re-watering continues.
	<ul style="list-style-type: none"> - - Responding to requests from the Public Agencies. - Seismic monitor setup at Dow 18 well site. - Responding to request by Public Agencies.
Proposed Activities and Objectives	<ul style="list-style-type: none"> - Continue Normal Operation including operation of flares associated with normal operations. - Continue visual inspection of property and equipment for signs of subsidence or anything out of the ordinary. - Respond to Public Agency Request

**Activities Associated with
Declaration of Emergency and Directive**

Activity For Period Described Above	<ul style="list-style-type: none"> - Reporting Water flows - Gathering data for Consultant Hired by Dome Operators.
Completed Activities	<ul style="list-style-type: none"> - LEL monitoring of well bores, anchors, water wells penetrations, and T-20 mining water tanks including visual inspections. No LEL detected on any checks. - Met with Dome Operators on Wednesday - Water well samples have been pulled and sent to Lab for analysis. - Met with DNR and Shaw to discuss action plans. - Sample results from water wells received and sent to DNR - Ran PDK Log on Dow 14 brine well and Water Well 1 9/24/12. As per experts no gas detected in either location. - Met with Dome Operators 9/26/12 - Sent Storage well data to DNR - Gathered Water well information for Dr. Ratigan. - The Dow water wells were sampled today 10/3/12. - Met with DNR to review progress by Dome Operators and Dr. Ratigan. - LEL monitoring on the well bores, anchors, water wells, and T-20 mining water tank including visual inspections. Complete 10/6/12 zero LEL at all test sites. - Update meeting with Dome Operators and Dr. Ratigan. 10/8/12 - Results from water well samples to DNR 10/15/12. - 10/31/12 water well samples pulled. - LEL monitoring of well bores, anchors, water wells penetrations, and T-20 mining water tanks including visual inspections on 10/6/12. No LEL detected on any checks. - Reporting Daily Water Well flows to DNR
