Activities

Operational Period Report Date	05/22/13 06:00 – 05/23/13 06:00
Current Status of Operation or	- Continuing Normal Operations
Activity	 Normal operations include operating 4 permitted flares.
	Flows to these flares are dependent on the equipment in
	operation at the time. Starting and stopping some
	equipment including pumps and compressors have an
	effect on flare flows.
	 Coastal Contractor performing underground piping
	inspections. This entails walking out underground piping
	testing for coating breakdown using non-intrusive testing
	equipment (ECDA). Drilling holes complete performing
	inspections.
	 De-pressuring UCAR wells to tanker and hauling to
	coalescer area.
	 Air boat here for surveying in swamp.
	- Water to Chevron for re-watering.
Proposed Activities and	 Continue Normal Operation including operation of flares
Objectives	associated with normal operations.
	 Continue visual inspection of property and equipment for
	signs of subsidence or anything out of the ordinary.
	 Respond to Public Agency Request

Activities Associated with Declaration of Emergency and Directive

Completed Activities - LEL monitoring of well bores, anchors, water wells penetrations, and T-20 mining water tanks including visual inspections. No LEL detected on any checks. - Met with Dome Operators on Wednesday - Water well samples have been pulled and sent to Lab for analysis. - Met with DNR and Shaw to discuss action plans. - Sample results from water wells received and sent to DNR - Ran PDK Log on Dow 14 brine well and Water Well 1 9/24/12. As per experts no gas detected in either location. - Met with Dome Operators 9/26/12 - Sent Storage well data to DNR - Gathered Water well information for Dr. Ratigan. - The Dow water wells were sampled today 10/3/12. - Met with DNR to review progress by Dome Operators and Dr. Ratigan. - LEL monitoring on the well bores, anchors, water wells, and T-20 mining water tank including visual inspections. Complete 10/6/12 zero LEL at all test sites. - Update meeting with Dome Operators and Dr. Ratigan. 10/8/12 - Results from water well samples to DNR 10/15/12. - 10/31/12 water well samples pulled. - LEL monitoring of well bores, anchors, water wells penetrations, and T-20 mining water tanks including visual inspections on 10/6/12. No LEL detected on any checks.	Activity For Period Described Above	- Reporting Water flows
inspections on 10/6/12. No LEL detected on any checks.		penetrations, and T-20 mining water tanks including visual inspections. No LEL detected on any checks.
