Grand Bayou Operations Control Room ( Staffed 24 hours)	Phone: [REDACTED] Phone: [REDACTED] Cell Phone: [REDACTED]

### Activities

Operational Period Report Date	11/26/13 06:00 – 11/27/13 06:00
Current Status of Operation or Activity	<ul style="list-style-type: none"><li>- Continuing Normal Operations</li><li>- Normal operations include operating 4 permitted flares. Flows to these flares are dependent on the equipment in operation at the time. Starting and stopping some equipment including pumps and compressors have an effect on flare flows.</li><li>- Dow 21 – Back to normal operation</li><li>- Freezing weather preparation</li><li>- Check heat tracing throughout plant.</li><li>- Move separator from well 4 area to shop to clean flanges, then move to well 3/3A.</li><li>- Load dak paks on truck for shipping.</li><li>- Housekeeping at well 21 from work over. Moving mud mats to lay down yard by well 8.</li><li>- Prep concrete in T-1 Dike area for liner installation using a needle gun.</li><li>- De-pressuring brine on UCAR 1 and UCAR 2 to set pressure using tanker trucks. Routine pressure management.</li><li>- Millwrights performing PM on several pumps and motors in GBO and UCAR.</li></ul>

	<ul style="list-style-type: none"> <li>- Will be commissioning piping associated with DO-329 replacement there will be a small amount of use of the UCAR flare FS-580.</li> </ul>
Proposed Activities and Objectives	<ul style="list-style-type: none"> <li>- Continue Normal Operation including operation of flares associated with normal operations.</li> <li>- Continue visual inspection of property and equipment for signs of subsidence or anything out of the ordinary.</li> <li>- Respond to Public Agency Request</li> </ul>

**Activities Associated with Declaration of Emergency and Directive**

Activity For Period Described Above	<ul style="list-style-type: none"> <li>- Reporting Water flows</li> </ul>
Completed Activities	<ul style="list-style-type: none"> <li>- LEL monitoring of well bores, anchors, water wells penetrations, and T-20 mining water tanks including visual inspections. No LEL detected on any checks.</li> <li>- Met with Dome Operators on Wednesday</li> <li>- Water well samples have been pulled and sent to Lab for analysis.</li> <li>- Met with DNR and Shaw to discuss action plans.</li> <li>- Sample results from water wells received and sent to DNR</li> <li>- Ran PDK Log on Dow 14 brine well and Water Well 1 9/24/12. As per experts no gas detected in either location.</li> <li>- Met with Dome Operators 9/26/12</li> <li>- Sent Storage well data to DNR</li> <li>- Gathered Water well information for Dr. Ratigan.</li> <li>- The Dow water wells were sampled today 10/3/12.</li> <li>- Met with DNR to review progress by Dome Operators and Dr. Ratigan.</li> <li>- LEL monitoring on the well bores, anchors, water wells, and T-20 mining water tank including visual inspections. Complete 10/6/12 zero LEL at all test sites.</li> <li>- Update meeting with Dome Operators and Dr. Ratigan. 10/8/12</li> <li>- Results from water well samples to DNR 10/15/12.</li> <li>- 10/31/12 water well samples pulled.</li> <li>- LEL monitoring of well bores, anchors, water wells penetrations, and T-20 mining water tanks including visual inspections on 10/6/12. No LEL detected on any checks.</li> <li>- Reporting Daily Water Well flows to DNR.</li> </ul>
