Activities

Operational Period Report Date	10/07/12 06:00 – 10/08/12 06:00
Current Status of Operation or	- Continuing Normal Operations
Activity	 Normal operations include operating 4 permitted flares.
	Flows to these flares are dependent on the equipment in
	operation at the time. Starting and stopping some
	equipment including pumps and compressors have an
	effect on flare flows.
	- MIT complete next step is to vent off the nitrogen. This will
	generate noise. Venting continues on days only.
	- Water to Chevron for re-watering.
Current Activities and Objectives	 Responding to requests from the Public Agencies.
	- Seismic monitor setup at Dow 18 well site.
	- Responding to request by Public Agencies.
Proposed Activities and	 Continue Normal Operation including operation of flares
Objectives	associated with normal operations.
	- Continue visual inspection of property and equipment for
	signs of subsidence or anything out of the ordinary.
	- Will be venting nitrogen from Dow 17 and Dow 22 for 4-5
	days. This venting will be noisy.
	- Work will begin soon on Dow 8/8A north of hwy 70
	associated with a scheduled MIT. This well is MIT'd every 5

years and is due this year. Permit has been approved. Prior to beginning we will be logging the well to see where the product interface is. Baker Hughes will most likely be doing
this logging. - Respond to Public Agency Request

Activities Associated with

Declaration of Emergency and Directive

Activity For Period Described - Reporting Water flows	
Above - Gathering data for Consultant Hired by Dome Operator	rs.
Completed Activities - LEL monitoring of well bores, anchors, water wells	
penetrations, and T-20 mining water tanks including v	isual
inspections. No LEL detected on any checks.	
- Met with Dome Operators on Wednesday	
- Water well samples have been pulled and sent to Lab analysis.	for
- Met with DNR and Shaw to discuss action plans.	
- Sample results from water wells received and sent to	ONR
- Ran PDK Log on Dow 14 brine well and Water Well 1	
9/24/12. As per experts no gas detected in either loca	ition.
- Met with Dome Operators 9/26/12	
- Sent Storage well data to DNR	
- Gathered Water well information for Dr. Ratigan.	
- The Dow water wells were sampled today 10/3/12.	
- Met with DNR to review progress by Dome Operators	and
Dr. Ratigan.	
- LEL monitoring on the well bores, anchors, water well	s. and
T-20 mining water tank including visual inspections.	,
Complete 10/6/12 zero LEL at all test sites.	
Ground Water flows below are in - Will report weekend flows on Monday. Cannot run re	port
gallons as requested by DNR. when out of office. Flows are from 00:00 – 23:59. Ou	•
office today and rest of week will report water well	
numbers on Monday.
