Commissioner James H. Welsh
P.O. Box 94275
Baton Rouge, LA 70804

RE: In response to State of Louisiana Department of Natural Resources Office of Conservation's Second Amendment to Declaration of Emergency and Directive

Commissioner Welsh,

In response to the Second Amendment and Declaration of Emergency and Directive order issued by the Louisiana Department of Natural Resources (LDNR), Office of Conservation on September 25, 2012, Texas Brine Company, LLC (TBC) understands the seven items listed in the document.

In the above mentioned, TBC was specifically directed and ordered to perform certain tasks outlined in the above mentioned document. Below are the required responses, as directed.

1. TBC's counsel provided LDNR legal counsel with a response to Directives 1-3 on September 28, 2012.
2. TBC understands Directive 4, which is to provide all daily logs and field notes from all contractors conducting investigation into subsidence and natural gas bubbling. The Daily Action Summary and results for current information can be found in the Attachment section of this report.
3. TBC understands Directive 5, which directs TBC to immediately allow for split or share any sample taken on site related to Well 3A (Serial Number 974265), the cavern, other wells facilities or other site locations. The Daily Action Summary of today's collection can be found in Attachment section of this report.
4. TBC understands Directive 6, which directs TBC to immediately report the results (final and preliminary) of any tests, logs samples or data collection performed on Well 3A, the cavern, other wells, facilities or site locations that indicate a change in any previously known conditions related to the investigation of the subsidence or natural gas bubbling

events, and continue to report any such results. The Daily Action Summary and the Results related to this Directive can be found in Attachment section of this report.

5. TBC understands the Directive 7, which states that TBC will provide a daily summary of all tests, or logs performed or samples taken from Well 3A and the cavern as well as any results of those tests or logs, including preliminary as of September 25, 2012 and going forward. The Daily Summary and Results related to this Directive can be found in Attachment section of this report.

Please note that the drilling rig used for the Observation Well 3A has been removed and the site is being rigged down and returned to pre-drilling condition. As such, daily drilling reports for this well have ceased. Plans are being made for longer term potential gas venting/flaring requirements and possible hydrocarbon material recover from Well 3A.

In addition, previous daily summary reports issued to LDNR have included significant duplicate information as there is a fair amount of overlap in the information requested in each of the Directives included in the September 25, 2012 order. All requested information associated with the Directives issued in the September 25, 2012 order are included in the Attachment section of this report.

TBC believes that the submittal of this report satisfies the requirements of the Declaration of Emergency and Directive issued on September 25, 2012. As directed this report is submitted by email to conservationorder@la.gov, ref. "Emergency Declaration-Texas Brine Company LLC-9/25/2012.

Daily Action Summary

January 3, 2014

Sinkhole Perimeter Air Monitoring and Neighborhood Air Monitoring

- The following locations are equipped with solar-powered weather boxes: Pad #9, TR-1a, ORW-11a, ORW-9a, ORW-5, and PVW-BS-56a. And, the following locations are equipped with electrical power: ORW-49-WH and ORW-50-WH. Thus, daily monitor change-out is no longer necessary. All monitors will continue to be calibrated and serviced as necessary.
- No Sage personnel onsite.
- Megan Tramonte of Code Red (monitor sub-contractor) onsite from 07:00 to 17:00. Assisted in maintenance of the monitoring equipment as necessary.

NOTE: As discussed on the 01/02/2014 Daily Action Summary, RTU-10, located at ORW-9a, experienced a battery malfunction at approximately 19:46 on 01/02/2014. RTU-8 replaced RTU-10 at approximately 09:00 on 01/03/2014, and normal data collection resumed.

Residential Air Monitoring

- Sage has been requested to suspend bimonthly residential air monitoring. Therefore, Sage will discontinue these activities. The last event was conducted on March 26, 2013.

Gas Seep Sampling

- Not Scheduled

Well Gas Sampling

- Not Scheduled

Under Slab Gas Sampling

- Not Scheduled

Air Indoor Monitoring

- Not Scheduled

Notes:

RTU-10, located at ORW-9a, experienced a battery malfunction at approximately 07:46 PM on 01/02/2014. RTU-8 replaced RTU-10 at approximately 09:00 AM on 01/03/2014, and normal data collection resumed.

Daily Action Summary

January 4, 2014

Sinkhole Perimeter Air Monitoring and Neighborhood Air Monitoring

- The following locations are equipped with solar-powered weather boxes: Pad #9, TR-1a, ORW-11a, ORW-9a, ORW-5, and PVW-BS-56a. And, the following locations are equipped with electrical power: ORW-49-WH and ORW-50-WH. Thus, daily monitor change-out is no longer necessary. All monitors will continue to be calibrated and serviced as necessary.
- No Sage personnel onsite.
- Megan Tramonte of Code Red (monitor sub-contractor) onsite from 07:00 to 13:00. Assisted in maintenance of the monitoring equipment as necessary.

NOTE: RTU-6, located at TR-1a, recorded elevated LEL readings when deployed on 01/04/2014. The onsite technician fresh-air calibrated the unit, and LEL readings returned to normal. Beginning at approximately 15:54, RTU-6 went into sporadic LEL sensor alarms. RTU-6 will be replaced and serviced before being re-deployed.

Residential Air Monitoring

- Sage has been requested to suspend bimonthly residential air monitoring. Therefore, Sage will discontinue these activities. The last event was conducted on March 26, 2013.

Gas Seep Sampling

- Not Scheduled

Well Gas Sampling

- Not Scheduled

Under Slab Gas Sampling

- Not Scheduled

Air Indoor Monitoring

- Not Scheduled

Notes:

RTU-6, located at TR-1a, recorded elevated LEL readings when deployed on 01/04/2014. The onsite technician fresh-air calibrated the unit, and LEL readings returned to normal. Beginning at approximately 3:54 PM, RTU-6 went into sporadic LEL sensor alarms. RTU-6 will be replaced and serviced before being re-deployed.

Beginning at approximately 3:54 PM, RTU-6 went into sporadic LEL sensor alarms. RTU-6 will be replaced and serviced before being re-deployed.

Daily Action Summary

January 5, 2014

Sinkhole Perimeter Air Monitoring and Neighborhood Air Monitoring

- The following locations are equipped with solar-powered weather boxes: Pad #9, TR-1a, ORW-11a, ORW-9a, ORW-5, and PVW-BS-56a. And, the following locations are equipped with electrical power: ORW-49-WH and ORW-50-WH. Thus, daily monitor change-out is no longer necessary. All monitors will continue to be calibrated and serviced as necessary.
- No Sage personnel onsite.
- Megan Tramonte of Code Red (monitor sub-contractor) onsite from 07:00 to 12:45. Assisted in maintenance of the monitoring equipment as necessary.

NOTE: Data had to be manually retrieved from internal data loggers from all active sinkhole units due to radio signal issues, which began at approximately 17:00 on 01/05/2014. The internal data logger for RTU-3, located at ORW-9a, was not set to internally record CO and VOC. The onsite technician has corrected the internal data logger settings for RTU-3.

Residential Air Monitoring

- Sage has been requested to suspend bimonthly residential air monitoring. Therefore, Sage will discontinue these activities. The last event was conducted on March 26, 2013.

Gas Seep Sampling

- Not Scheduled

Well Gas Sampling

- Not Scheduled

Under Slab Gas Sampling

- Not Scheduled

Air Indoor Monitoring

- Not Scheduled

Texas Brine - Belle Rose, Louisiana

Notes:
Data had to be manually retrieved from internal data loggers from all active units due to radio signal issues, which began at approximately 05:00 PM on 01/05/2014. The internal data logger for RTU-3, located at ORW-9a, was not set to internally record CO and VOC. The onsite technician has corrected the internal data logger settings for RTU-3.

RESPEC Consulting & Services

Texas Brine, L.L.C.

Assumption Parish, Louisiana

Daily Field Report

Report By: David Gnage

Date: 1/3/2014
