Baton Rouge, LA 70804

RE: In response to State of Louisiana Department of Natural Resources Office of Conservation's Second Amendment to Declaration of Emergency and Directive

Commissioner Welsh,

In response to the Second Amendment and Declaration of Emergency and Directive order issued by the Louisiana Department of Natural Resources (LDNR), Office of Conservation on September 25, 2012, Texas Brine Company, LLC (TBC) understands the seven items listed in the document.

In the above mentioned, TBC was specifically directed and ordered to perform certain tasks outlined in the above mentioned document. Below are the required responses, as directed.

1. TBC's counsel provided LDNR legal counsel with a response to Directives 1-3 on September 28, 2012.
2. TBC understands Directive 4, which is to provide all daily logs and field notes from all contractors conducting investigation into subsidence and natural gas bubbling. The Daily Action Summary and results for current information can be found in the Attachment section of this report.
3. TBC understands Directive 5, which directs TBC to immediately allow for split or share any sample taken on site related to Well 3A (Serial Number 974265), the cavern, other wells facilities or other site locations. The Daily Action Summary of today's collection can be found in Attachment section of this report.
4. TBC understands Directive 6, which directs TBC to immediately report the results (final and preliminary) of any tests, logs samples or data collection performed on Well 3A, the cavern, other wells, facilities or site locations that indicate a change in any previously known conditions related to the investigation of the subsidence or natural gas bubbling

events, and continue to report any such results. The Daily Action Summary and the Results related to this Directive can be found in Attachment section of this report.

5. TBC understands the Directive 7, which states that TBC will provide a daily summary of all tests, or logs performed or samples taken from Well 3A and the cavern as well as any results of those tests or logs, including preliminary as of September 25, 2012 and going forward. The Daily Summary and Results related to this Directive can be found in Attachment section of this report.

Please note that the drilling rig used for the Observation Well 3A has been removed and the site is being rigged down and returned to pre-drilling condition. As such, daily drilling reports for this well have ceased. Plans are being made for longer term potential gas venting/flaring requirements and possible hydrocarbon material recover from Well 3A.

In addition, previous daily summary reports issued to LDNR have included significant duplicate information as there is a fair amount of overlap in the information requested in each of the Directives included in the September 25, 2012 order. All requested information associated with the Directives issued in the September 25, 2012 order are included in the Attachment section of this report.

TBC believes that the submittal of this report satisfies the requirements of the Declaration of Emergency and Directive issued on September 25, 2012. As directed this report is submitted by email to conservationorder@la.gov, ref. "Emergency Declaration-Texas Brine Company LLC-9/25/2012.

Daily Action Summary

January 23, 2014

Sinkhole Perimeter Air Monitoring and Neighborhood Air Monitoring

- The following locations are equipped with solar-powered weather boxes: Pad #9, TR-1a, ORW-11a, ORW-9a, ORW-5, and PVW-BS-56a. And, the following locations are equipped with electrical power: ORW-49-WH and ORW-50-WH. Thus, daily monitor change-out is no longer necessary for these locations. All monitors will continue to be calibrated and serviced as necessary.
- No Sage personnel onsite.
- Roxana Dubose of Code Red (monitor sub-contractor) onsite from 07:00 to 17:00. Assisted in maintenance of the monitoring equipment as necessary.

Residential Air Monitoring

- Sage has been requested to suspend bimonthly residential air monitoring. Therefore, Sage will discontinue these activities. The last event was conducted on March 26, 2013.

Gas Seep Sampling

- Not Scheduled

Well Gas Sampling

- Not Scheduled

Under Slab Gas Sampling

Notes:

RESPEC Consulting & Services

Texas Brine, L.L.C.

Assumption Parish, Louisiana

Daily Field Report

Report By: Crystal Hocking

Date: 1/23/2014

Company: RESPEC

Job #: 2241

Personnel	Company	Job Title
John Knight	RESPEC	Staff Geologist
Eric Krantz	RESPEC	Staff Engineer

Time Onsite: Start Time: 7:30 End Time: 17:30

DAILY ACTIVITY:

Attended onsite contractor and safety meeting.

Instrumentation Program:

Oversight of boring of IPI-STR-02 to 145 ft TD. Assembled IPI casing anchor. Boring and Ardaman sampling complete; the boring made gas on several occasions and the Shelby tube was destroyed encountering sand at 106-108.5 ft bgs.

Other Programs:

Passive Vent Wells: RESPEC monitored gas pressure at PVW-03 (pressure 5.8-6.4 psi); PVW-3 does not have enough gas production to vent continually. No measurable pressure at PVW-1. Newly installed Track-it pressure logger may indicate pressure on NSDMW006 due to higher sensitivity than gauge. Track-it logger on GP-5 reads 6.5 psi. Installed and trouble shot data logger on NSDMW006.

Observed redevelopment of DPVE-22-3, DPVE-37-2, and NSDMW-006.

Berm Mapping: No Work Conducted.

PROPOSED SCHEDULE:

Instrumentation Program:

Observe drilling and log samples for IPI-STR-02. Quarterly maintenance of southern water level and IPI sites.

Other Programs:

Passive Vent Wells: Drilling at PVW-02 (GP-6) within the DOT right-away awaiting permit approval; coring and auger drilling may begin on 1/24/14. Install data loggers and well risers at DPVE-22 and DPVE-37.

Berm Mapping: Finish mapping berms west of sinkhole.

Initials: CMH
