RE: In response to State of Louisiana Department of Natural Resources Office of Conservation's Second Amendment to Declaration of Emergency and Directive

Commissioner Welsh,

In response to the Second Amendment and Declaration of Emergency and Directive order issued by the Louisiana Department of Natural Resources (LDNR), Office of Conservation on September 25, 2012, Texas Brine Company, LLC (TPC) understands the seven items listed in the document.

In the above mentioned, TBC was specifically directed and ordered to perform certain tasks outlined in the above mentioned document. Below are the required responses, as directed.

1. TBC's counsel provided LDNR legal counsel with a response to Directives 1-3 on September 28, 2012.
2. TBC understands Directive 4, which is to provide all daily logs and field notes from all contractors conducting investigation into subsidence and natural gas bubbling. The Daily Action Summary and results for current information can be found in the Attachment section of this report.
3. TBC understands Directive 5, which directs TBC to immediately allow for split or share any sample taken on site related to Well 3A (Serial Number 974265), the cavern, other wells facilities or other site locations. The Daily Action Summary of today's collection can be found in Attachment section of this report.
4. TBC understands Directive 6, which directs TBC to immediately report the results (final and preliminary) of any tests, logs samples or data collection performed on Well 3A, the cavern, other wells, facilities or site locations that indicate a change in any previously known conditions related to the investigation of the subsidence or natural gas bubbling

events, and continue to report any such results. The Daily Action Summary and the Results related to this Directive can be found in Attachment section of this report.

5. TBC understands the Directive 7, which states that TBC will provide a daily summary of all tests, or logs performed or samples taken from Well 3A and the cavern as well as any results of those tests or logs, including preliminary as of September 25, 2012 and going forward. The Daily Summary and Results related to this Directive can be found in Attachment section of this report.

Please note that the drilling rig used for the Observation Well 3A has been removed and the site is being rigged down and returned to pre-drilling condition. As such, daily drilling reports for this well have ceased. Plans are being made for longer term potential gas venting/flaring requirements and possible hydrocarbon material recover from Well 3A.

In addition, previous daily summary reports issued to LDNR have included significant duplicate information as there is a fair amount of overlap in the information requested in each of the Directives included in the September 25, 2012 order. All requested information associated with the Directives issued in the September 25, 2012 order are included in the Attachment section of this report.

TBC believes that the submittal of this report satisfies the requirements of the Declaration of Emergency and Directive issued on September 25, 2012. As directed this report is submitted by email to conservationorder@la.gov, ref. "Emergency Declaration-Texas Brine Company LLC-9/25/2012.

Daily Action Summary

February 19, 2013

Stationary Air Monitoring

- Bijet Mukherjee onsite from 08:05 to 09:45. Changed out the monitors between 08:33 and 09:05. Collected data from the monitoring database and forwarded to Eric Rucinski Baton Rouge office for processing.
- Pete Hyatt IV of Code Red (monitor sub-contractor) onsite from 07:00 to 17:00. Assisted in battery change outs and maintenance of the monitoring equipment.

Residential Air Monitoring

- Not Scheduled

Gas Seep Sampling

- Not Scheduled

Well Gas Sampling

- Not Scheduled

Air Indoor Monitoring

- Not Scheduled

Texas Brine - Belle Rose, Louisiana

Notes:
Data was not properly transmitted by RTU-8 beginning at 09:42 AM on 2/18/13. Real time data could be viewed by the onsite technician; however, the data was not transmitted and recorded. RTU-8 will be serviced by onsite technician.
RTU-13, located at OG3A-1, recorded low O2 readings from approximately 10:00 AM to 11:15 AM on 2/19/2013. RTU-13 also began recording elevated O2 readings at approximately 05:25 PM on 2/19/2013. RTU-13 aslo was fresh air calibrated by the onsite technician at approximately 07:20 AM on 2/20/2013 and began recording normal O2 readings.

Notes:
Data was not properly transmitted by RTU-8 beginning at 09:42 AM on 2/18/13. Real time data could be viewed by the onsite technician; however, the data was not transmitted and recorded. RTU-8 will be serviced by onsite technician.
RTU-13, located at OG3A-1, recorded low O2 readings from approximately 10:00 AM to 11:15 AM on 2/19/2013. RTU-13 also began recording elevated O2 readings at approximately 05:25 PM on 2/19/2013. RTU-13 was fresh air calibrated by the onsite technician at approximately 07:20 AM on 2/20/2013 and began recording normal O2 readings.

RESPEC Consulting & Services

Texas Brine, L.L.C.
Assumption Parish, Louisiana
Daily Field Report

Report By: Eric Krantz

Date: 2/19/13

Company: RESPEC

Work Order #: ()

Personnel	Company	Job Title
Eric Krantz	RESPEC	Engineer

Time Onsite: Start Time: 0830 End Time: 1700

(Note: on-site time only reflects time on-site; it does not reflect time taken for off-site activities)

Equipment Onsite:

Daily Activity: Meet with Fenstermaker; receive equipment and build up enclosure; configure, program and test datalogger and transducer; install Rig Access Road transducer, solar panel and antenna; test radio communications; dismantle Pad 3 transducer equipment;

Proposed Schedule: 2/20: Install Pad 3 transducer on reflector; configure Atlas for new Rig Access Road transducer; create new map with transducer locations;
2/20– 2/26: Assist Fenstermaker with survey; evaluate position of equipment and discuss/consider moving back from sinkhole

Initials: ELK

ME&A Daily Action Summary

February 19, 2013

Subsidence Survey:

- No Work Done

Sinkhole Perimeter/Hydrographic Survey:

- Arrived @ 7:15 am
- Finish perimeter sinkhole survey to determine extent of subsidence area.
- Departed @ 4:30 pm

Support Sinkhole Cleanup

- No Work Done

Misc. Survey Work

- Ran conventional level loop on south containment levee road to check for settlement. Settlement survey suspended on north containment levee due to construction activities resuming.

Date: 2/19/2013
Work Order # 80-05

Health and Safety Meeting YES NO

Weather: 62 F Partly Cloudy wind SSE

<u>Personnel</u>	<u>Company</u>	<u>Job Title</u>
<u>Patrick Ritchie</u>	<u>MP&A</u>	<u>Environmental Scientist</u>
<u>Charles Trahan</u>	<u>MP&A</u>	<u>Geologist</u>
<u>Walker-Hill Drilling Crew</u>		

Site Activities: Start Time 6:55 End Time 17:20

Equipment On-site: Gardner Denver mud rotary rig
1000 Gal poly tank
Skid Steer
Vac Truck

Daily Activity:

MRAA-02D location was logged by Baker Hughes.
Reamed MRAA-02D from 150' bgs to 180' bgs with 9 1/2' bit
Conduct in-situ monitoring surface water transect and industrial water well locations
Measure water level for the industrial water wells
Collect laboratory samples from the TBC and GG industrial water wells

Estimated time of completion:
On-going

Proposed schedule:

Conduct in-situ monitoring surface water transect and industrial water well locations 2/22/2013
Measure water level for the industrial water wells 2/22/2013
Collect laboratory samples from the surface water transect locations 2/22/2013
Measure pressure and water level at TBC Geoprobe locations 2/25/2013
Continue reaming of MRAA-02D

Estimated time of completion:
On-going
