**Louisiana Total Rig Count (Including OCS)**

% change from January 5, 2007 = -71.20%  
 % change from January 2, 2004 = -66.46%

**Area with largest % change over the last 6 months (from the 1<sup>st</sup> week of those 6 months):**

South Louisiana Inland Water has the largest change.

| <u>Area</u>                        | South Louisiana Inland Water | State Offshore (Only)* |
|------------------------------------|------------------------------|------------------------|
| <b><u>Rig Count</u></b>            |                              |                        |
| 1 <sup>st</sup> week of 6 months = | 2                            | 0                      |
| <b><u>Change in Rigs</u></b>       |                              |                        |
| Max =                              | 3                            | 0                      |
| Min =                              | -1                           | 0                      |
| Avg =                              | 1                            | 0                      |
| <b><u>%Change in Rigs</u></b>      |                              |                        |
| Avg over last 6 months =           | 70.00%                       | N/A                    |

\* The state offshore is very misleading, because of the small amount of rigs working in the area
