Subject: Document or Clarification Request for your submission to the Bipartisan Infrastructure Law Sec. 40601 Orphaned Well State Initial Grant Program

EXTERNAL EMAIL: Please do not click on links or attachments unless you know the content is safe.

All,

A review of your Application Package shows that a clarification is needed to fully evaluate your submission.

Documents or information requested:

1. Submit a detailed budget that supports and justifies the amount of the request (\$25M) and a revised SF-424A.
2. Clearly differentiate Administrative Costs (as defined in the Initial State Grant guidance and subject to the 10% cap) from project costs. For instance, the cost of the public website should be an administrative cost, not a project cost, whether it is performed by a State employee or by a contractor.
3. How many wells does the State expect to plug with the Initial State Grant funds?

Please provide the requested documents by July 1, 2022.

Thank you.
