

## Coast-It Notes

[CONTACT US »](#)

### Greetings from the Louisiana Department of Natural Resources Office of Coastal Management.

Friday, October 4, 2013

#### [SPECIAL PUBLIC NOTICE - TROPICAL STORM KAREN](#)

Effective immediately, the Secretary of the Department of Natural Resources is authorizing those activities necessary to prevent and mitigate to the extent possible damages associated with Tropical Storm Karen. In the event that new construction is needed, an after-the-fact permit application and/or consistency determination might be required.

Also, the Secretary has determined that potential damage to energy and other infrastructure in the Louisiana Coastal Zone by this storm may result in an emergency situation, and that damage resulting in a threat to life, property, or the environment is covered by the emergency use provisions of the Rules and Procedures for Coastal Use Permits. Further, the Secretary has determined that due to the potential threat that Tropical Storm Karen may cause an impact of statewide significance, all emergency uses under the jurisdiction of the Louisiana Coastal Resources Program which are necessitated for preparation, response to, and the aftermath of this storm shall be considered *Uses of State Concern*.

Because of the potential for widespread damage associated with Tropical Storm Karen, the Department of Natural Resources is temporarily modifying its usual emergency authorization procedures for storm related repair/restoration projects located in the Coastal Zone. This modification applies **ONLY** to those activities needed to restore infrastructure.

The Department reminds all emergency users to avoid and minimize impacts resulting from the activities authorized by this notice to coastal resources where possible, since compensatory mitigation for these impacts will most likely be required.

In the event that emergency repairs are needed, emergency users are authorized to commence the necessary work at the earliest opportunity. Emergency users are to provide the Department with notification via letter, email or fax as soon as possible for documentation purposes. The notification should include:

- the name and contact information of the entity undertaking the activity,
- a description of the work performed,
- a vicinity map showing the location of the emergency work,
- and project coordinates (lat/long) if available.

Notifications should be directed to:

Christine Charrier  
PO Box 44487  
Baton Rouge, LA 70804-4487  
Phone: 225-342-7591  
Fax: 225-342-9439  
[Christine.Charrier@la.gov](mailto:Christine.Charrier@la.gov)

Unless this notice is renewed, it shall expire on Wednesday, October 9, 2013 at 4:00 PM.

*Coastit Notes is a publication of the Office of Coastal Management to inform permit applicants, the public and others of events and items that may impact them or their interaction with our office. This e-document is intended to improve customer service and awareness of OCM works and functions and includes announcements from all OCM divisions as issues arise.*
