**Subject:** Comment For the Proposed New Oil and Gas Lease Form

Suzzane

After reviewing previous state leases we take issue with the states language concerning oil transportation deductions against royalties. As you know many oil contracts are set up with transportation netted from the price. While this is an actual charge to the producer no invoice is generated. The state can solve the issue with the proposed language by simply removing the language "as evidenced by invoices from transporters".

Let me know if you have any other questions.
