1 GENERAL INFORMATION

1.1 Purpose

This Request for Proposals (RFP) is issued by the Department of Natural Resources (herein referred to as the State) for the purpose of implementing, coordinating, and operating the Joint Public Notice System.

1.2 Background

The Office of Coastal Management (OCM) of the Louisiana Department of Natural Resources is charged with implementing the Louisiana Coastal Resources Program (LCRP) under authority of the State and Local Coastal Resources Management Act, as amended (Act 361, La. R. S. 49:214.21 et seq). This law seeks to protect, develop, and where feasible, restore or enhance the resources of the state's Coastal Zone. Its broad intent is to encourage multiple uses of resources and adequate economic growth while minimizing adverse effects of one resource use upon another without imposing undue restrictions on any user. Besides striving to balance conservation and resources, the guidelines and policies of the LCRP also help to resolve user conflicts, encourage coastal zone recreational values, and determine the future course of coastal development and conservation. The guidelines are designed so that development in the Coastal Zone can be accomplished with the greatest benefit and the least amount of damage. The LCRP is an effort among Louisiana citizens, as well as state, federal and local advisory and regulatory agencies.

The OCM regulates development activities and manages the resources of the Coastal Zone. A Coastal Use Permit (CUP) Program has been established by the Act as part of the LCRP to help ensure the management and reasonable use of the state's coastal resources. The CUP is the basic regulatory tool of OCM and is required for certain projects in the Coastal Zone, including but not limited to dredge and fill work, bulkhead construction, shoreline maintenance, and other development projects. The purpose of the CUP process is to make certain that any activity affecting the Coastal Zone is performed in accordance with guidelines established in the LCRP. A prime concern of the CUP Program is to regulate activities that may impact coastal waters, increase the loss of wetlands and aquatic resources, as well as to reduce conflicts between coastal resource users.

In accordance with R.S. 49:214.33, OCM developed and maintains a coordinated coastal permitting process. This process provides for a joint application process with the US Army Corps of Engineers – New Orleans District (COE-NOD), Department of Environmental Quality (DEQ) and other federal, state and local agencies. This contract provides personnel and expertise to accomplish this requirement.

ATTACHMENT I: SCOPE OF SERVICES

The Office of Coastal Management (OCM) of the Louisiana Department of Natural Resources is charged with implementing the Louisiana Coastal Resources Program (LCRP) under authority of the State and Local Coastal Resources Management Act, as amended (Act 361, La. R. S. 49:214.21 et seq). This law seeks to protect, develop, and where feasible, restore or enhance the resources of the state's Coastal Zone. Its broad intent is to encourage multiple uses of resources and adequate economic growth while minimizing adverse effects of one resource use upon another without imposing undue restrictions on any user. Besides striving to balance conservation and resources, the guidelines and policies of the LCRP also help to resolve user conflicts, encourage coastal zone recreational values, and determine the future course of coastal development and conservation. The guidelines are designed so that development in the Coastal Zone can be accomplished with the greatest benefit and the least amount of damage. The LCRP is an effort among Louisiana citizens, as well as state, federal and local advisory and regulatory agencies.

The OCM regulates development activities and manages the resources of the Coastal Zone. A Coastal Use Permit (CUP) Program has been established by the Act as part of the LCRP to help ensure the management and reasonable use of the state's coastal resources. The CUP is the basic regulatory tool of OCM and is required for certain projects in the Coastal Zone, including but not limited to dredge and fill work, bulkhead construction, shoreline maintenance, and other development projects. The purpose of the CUP process is to make certain that any activity affecting the Coastal Zone is performed in accordance with guidelines established in the LCRP. A prime concern of the CUP Program is to regulate activities that may impact coastal waters, increase the loss of wetlands and aquatic resources, as well as to reduce conflicts between coastal resource users.

In accordance with R.S. 49:214.33, OCM developed and maintains a coordinated coastal permitting process. This process provides for a joint application process with the US Army Corps of Engineers – New Orleans District (COE-NOD), Department of Environmental Quality (DEQ) and other federal, state and local agencies. 3. OBJECTIVES

To implement, coordinate and operate the Joint Public Notice system.

4. PERFORMANCE MEASURES

The performance of the contract will be measured by the State Project Manager, authorized on behalf of the State, to evaluate the contractor's performance against the criteria in the Scope of Services.

The submission of satisfactory Monthly Progress Reports is required. Performance measures for this contract shall include Contractor's timely and successful completion, submission, and performance of any work product being sought and provided through this contract, consistent with the provisions, goals and objectives of this contract.

5. MONITORING PLAN

<project_manager> of ****identify department or division****, or ****his/her**** designee, will monitor the services provided by the contractor and the expenditure of funds under this contract. <project_manager> will be primarily responsible for the day-to-day contact with the contractor and day-to-day monitoring of the contractor's performance. The monitoring plan is the following:

Contractor will perform various duties which are specifically provided for in this Contract and Appendices A and B.

- (1) A progress report shall be submitted by the Contracting Party with each invoice for payment on Monitoring Report (Appendix C).
- (2) A final summary report shall be submitted by the Contracting Party on Monitoring Report (Appendix C) with the final invoice for payment.

6. DELIVERABLES

The Contract will be considered complete when Contractor has delivered and State has accepted all deliverables specified in the Scope of Services. The Contractor shall provide to the State the items specified in Appendices A and B as products of the services rendered under this contract.

7. SUBSTITUTION OF KEY PERSONNEL

The Contractor's personnel assigned to this Contract may not be replaced without the written consent of the State. Such consent shall not be unreasonably withheld or delayed provided an equally qualified replacement is offered. In the event that any State or Contractor personnel become unavailable due to resignation, illness, or other factors, excluding assignment to project outside this contract, outside of the State's or Contractor's reasonable control, as the case may be, the State or the Contractor, shall be responsible for providing an equally qualified replacement in time to avoid delays in completing tasks. The contractor will make every reasonable attempt to assign the personnel listed in his proposal.

8. TERM OF CONTRACT

The term for the fulfillment of services to be performed pursuant to this contract shall be from <begin_date> through <end_date>.

9. STATE FURNISHED RESOURCES

The ****Secretary/Executive Director**** of the State will designate one or more persons on his staff to act as project manager(s) and the State will provide the following to assist the Contractor in the performance of the Scope of Services:

11. PAYMENT TERMS

In consideration of the services required by this contract, State hereby agrees to pay to Contractor a maximum fee of <total_amt_wording>.

Payments are predicated upon successful completion and written approval by the State of the described tasks and deliverables as provided in Appendices A and B. Payments will be made to the Contractor after written acceptance by the State of the payment task and approval of an invoice. State will make every reasonable effort to make payments within 30 days of the approval of invoice and under a valid contract. Payment will be made only on approval of Contract Monitor, <project_manager>, or his designee.

During the execution of tasks contained in the Scope of Services, the Contractor may submit invoices, not more frequently than monthly. The payment terms are as follows:

****Enter the negotiated hourly rates or payment terms****

The final invoice shall be submitted within thirty (30) days following expiration of the contract.

Contractor will not be paid more than the maximum amount of the contract.

12. TERMINATION FOR CAUSE

State may terminate this Contract for cause based upon the failure of Contractor to comply with the terms and/or conditions of the Contract; provided that the State shall give the Contractor written notice specifying the Contractor's failure. If within thirty (30) days after receipt of such notice, the Contractor shall not have either corrected such failure or, in the case of failure which cannot be corrected in thirty (30) days, begun in good faith to correct said failure and thereafter proceeded diligently to complete such correction, then the State may, at its option, place the Contractor in default and the Contract shall terminate on the date specified in such notice. Failure to perform within the time agreed upon in the contract may constitute default and may cause cancellation of the contract.

Contractor may exercise any rights available to it under Louisiana law to terminate for cause upon the failure of the State to comply with the terms and conditions of this contract provided that the Contractor shall give the State written notice specifying the State agency's failure and a reasonable opportunity for the state to cure the defect.

13. TERMINATION FOR CONVENIENCE

State may terminate the Contract at any time without penalty by giving thirty (30) days written notice to the Contractor of such termination or negotiating with the Contractor an effective date. Contractor shall be entitled to payment for deliverables in progress, to the extent work has been performed satisfactorily.

14. TERMINATION FOR NON-APPROPRIATION OF FUNDS

The continuation of this contract is contingent upon the appropriation of funds by the legislature to fulfill the requirements of the contract by the legislature. If the legislature fails to appropriate sufficient monies to provide for the continuation of the contract, or if such appropriation is reduced by the veto of the Governor or by any means provided in the appropriations act of Title 39 of the Louisiana Revised Statutes of 1950 to prevent the total appropriation for the year from exceeding revenues for that year, or for any other lawful purpose, and the effect of such reduction is to provide insufficient monies for the continuation of the contract, the contract shall terminate on the date of the beginning of the first fiscal year for which funds have not been appropriated.

15. INDEMNIFICATION AND LIMITATION OF LIABILITY

Neither party shall be liable for any delay or failure in performance beyond its control resulting from acts of God or force majeure. The parties shall use reasonable efforts to eliminate or minimize the effect of such events upon performance of their respective duties under Contract.

Contractor shall be fully liable for the actions of its agents, employees, partners or subcontractors and shall fully indemnify and hold harmless the State and its Authorized Users from suits, actions, damages and costs of every name and description relating to personal injury and damage to real or personal tangible property caused by Contractor, its agents, employees, partners or subcontractors, without limitation; provided, however, that the Contractor shall not indemnify for that portion of any claim, loss or damage arising hereunder due to the negligent act or failure to act of the State.

If applicable, Contractor will indemnify, defend and hold the State and its Authorized Users harmless, without limitation, from and against any and all damages, expenses (including reasonable attorneys' fees), claims, judgments, liabilities and costs which may be finally assessed against the State in any action for infringement of a United States Letter Patent with respect to the Products furnished, or of any copyright, trademark, trade secret or intellectual property right, provided that the State shall give the Contractor: (i) prompt written notice of any action, claim or threat of infringement suit, or other suit, (ii) the opportunity to take over, settle or defend such action, claim or suit at Contractor's sole expense, and (iii) assistance in the defense of any such action at the expense of Contractor. Where a dispute or claim arises relative to a real or anticipated infringement, the State or its Authorized Users may require Contractor, at its sole expense, to submit such information and documentation, including formal patent attorney opinions, as the Commissioner of Administration shall require.

The Contractor shall not be obligated to indemnify that portion of a claim or dispute based upon: i) Authorized User's unauthorized modification or alteration of a Product, Material or Service; ii) Authorized User's use of the Product in combination with other products not furnished by Contractor; iii) Authorized User's use in other than the specified operating conditions and environment.

In addition to the foregoing, if the use of any item(s) or part(s) thereof shall be enjoined for any reason or if Contractor believes that it may be enjoined, Contractor shall have the right, at its own expense and sole discretion as the Authorized User's exclusive remedy to take action in the following order of precedence: (i) to procure for the State the right to continue using such item(s) or part (s) thereof, as applicable; (ii) to modify the component so that it becomes non-infringing equipment of at least equal quality and performance; or (iii) to replace said item(s) or part(s) thereof, as applicable, with non-infringing components of at least equal quality and performance, or (iv) if none of the foregoing is commercially reasonable, then provide monetary compensation to the State up to the dollar amount of the Contract.

For all other claims against the Contractor where liability is not otherwise set forth in the Contract as being "without limitation", and regardless of the basis on which the claim is made, Contractor's liability for direct damages, shall be the greater of \$100,000, the dollar amount of the Contract, or two (2) times the charges rendered by the Contractor under the Contract. Unless otherwise specifically enumerated herein or in the work order mutually agreed between the parties, neither party shall be liable to the other for special, indirect or consequential damages, including lost data or records (unless the Contractor is required to back-up the data or records as

part of the work plan), even if the party has been advised of the possibility of such damages. Neither party shall be liable for lost profits, lost revenue or lost institutional operating savings.

The State and Authorized User may, in addition to other remedies available to them at law or equity and upon notice to the Contractor, retain such monies from amounts due Contractor, or may proceed against the performance and payment bond, if any, as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against them.

16. CONTRACT CONTROVERSIES

Any claim or controversy arising out of the contract shall be resolved by the provisions of Louisiana Revised Statutes 39:1672.2 – 1672.4.

17. FUND USE

Contractor agrees not to use contract proceeds to urge any elector to vote for or against any candidate or proposition on an election ballot nor shall such funds be used to lobby for or against any proposition or matter having the effect of law being considered by the Louisiana Legislature or any local governing authority. This provision shall not prevent the normal dissemination of factual information relative to a proposition on any election ballot or a proposition or matter having the effect of law being considered by the Louisiana Legislature or any local governing authority.

18. ASSIGNMENT

No contractor shall assign any interest in this contract by assignment, transfer, or novation, without prior written consent of the State. This provision shall not be construed to prohibit the contractor from assigning to a bank, trust company, or other financial institution any money due or to become due from approved contracts without such prior written consent. Notice of any such assignment or transfer shall be furnished promptly to the State.

19. RIGHT TO AUDIT

The State Legislative Auditor, agency, and/or federal auditors and internal auditors of the Division of Administration shall have the option to audit all accounts directly pertaining to the contract for a period of three (3) years from the date of the last payment made under this contract. Records shall be made available during normal working hours for this purpose.

20. CONTRACT MODIFICATION

No amendment or variation of the terms of this contract shall be valid unless made in writing, signed by the parties and approved as required by law. No oral understanding or agreement not incorporated in the contract is binding on any of the parties.

21. CONFIDENTIALITY OF DATA

All financial, statistical, personal, technical and other data and information relating to the State's operation which are designated confidential by the State and made available to the contractor in order to carry out this contract, or which become available to the contractor in carrying out this contract, shall be protected by the contractor from unauthorized use and disclosure through the observance of the same or more effective procedural requirements as are applicable to the State. The identification of all such confidential data and information as well as the State's procedural

requirements for protection of such data and information from unauthorized use and disclosure shall be provided by the State in writing to the contractor. If the methods and procedures employed by the contractor for the protection of the contractor's data and information are deemed by the State to be adequate for the protection of the State's confidential information, such methods and procedures may be used, with the written consent of the State, to carry out the intent of this paragraph. The contractor shall not be required under the provisions of the paragraph to keep confidential any data or information which is or becomes publicly available, is already rightfully in the contractor's possession, is independently developed by the contractor outside the scope of the contract, or is rightfully obtained from third parties.

22. SUBCONTRACTORS

The Contractor may, with prior written permission from the State, enter into subcontracts with third parties for the performance of any part of the Contractor's duties and obligations. In no event shall the existence of a subcontract operate to release or reduce the liability of the Contractor to the State and/or State Agency for any breach in the performance of the Contractor's duties. The contractor will be the single point of contact for all subcontractor work.

23. CIVIL RIGHTS COMPLIANCE

The Contracting Party agrees to abide by the requirements of the following as applicable: Title VI and VII of the Civil Rights Act of 1964, as amended by the Equal Opportunity Act of 1972, Federal Executive Order 11246, the Federal Rehabilitation Act of 1973, as amended, the Vietnam Era Veteran's Readjustment Assistance Act of 1974, Title IX of the Education Amendments of 1972, the Age Act of 1975, and the Contracting Party agrees to abide by the requirements of the Americans with Disabilities Act of 1990, the Davis-Bacon Act (40 USC 276a et seq), and the Federal Funding Accountability and Transparency (FFATA) (<https://www.fsrs.gov>).
