Hazardous Liquids Pipeline Safety (LAC 33:V.Chapters 301-313)

The Louisiana Office of Conservation proposes to amend LAC 33:V.301et seq. in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq. and pursuant to power delegated under the laws of the State of Louisiana and particularly Title 30 of the Louisiana Revised Statutes of 1950, Section 30:501 et seq. This proposed Rule amends the minimum pipeline safety requirements for hazardous liquids pipelines.

There will be negligible cost to directly affected persons or hazardous liquids pipeline operators. Benefits will be realized by persons living and working near hazardous liquids pipelines through safer construction and operation standards imposed by the rule amendments. Moreover, Louisiana presently receives federal funds and pipeline inspection fees to administer the Hazardous Liquids Pipeline Safety Program. Failure to amend the Louisiana rules to make them consistent with federal regulations would cause the state to lose federal funding.
