RE: Proposed Alternate Unit Well
NOD 1A Sand, Reservoir A (Exceptional Location)
Proposed Substitute Unit Well
NOD 1B Sand, Reservoir A (Exceptional Location)
NORTH CROWLEY FIELD
Acadia Parish, Louisiana

Dear Sir:

Application is hereby made on behalf of Henry Production Company, Inc., for the calling of a public hearing, after ten (10) days legal notice, to consider evidence relative to the issuance of orders pertaining to the following matters relating to the NOD 1A Sand, Reservoir A, created by Office of Conservation Order No. 423-J, effective March 1, 1959 and the NOD 1B Sand, Reservoir A, created by Office of Conservation Order No. 423-K, effective March 1, 1959, both located in the North Crowley Field, Acadia Parish, Louisiana.

NOD 1A SAND, RESERVOIR A

1. To designate the Henry Production Company, Inc.- Ronkartz No. 1 Well (SN 231250) as an alternate unit well for the NOD 1A RA SUD, said well located approximately as shown on the plat attached hereto, in exception to the spacing provisions of Office of Conservation Order No. 423-J, effective March 1, 1959.
2. To permit the operator to produce the unit allowable from the unit well, the proposed alternate unit well, or from both wells, at its option.
3. Except to the extent contrary herewith, to continue in full force and effect the provisions of Office of Conservation Order No. 423-J, the unit created thereby, and applicable Statewide Orders.
4. To consider such other matters as may be pertinent.

The designation of the well, as an alternate unit well for the captioned unit, will aid in meeting the market demand for gaseous hydrocarbons and condensate and will not cause any inequities to the Parties involved.

The NOD 1A Sand, Reservoir A, in the North Crowley Field, Acadia Parish, Louisiana, was fully defined in Office of Conservation Order No. 423-J, effective March 1, 1959.

NOD 1B SAND, RESERVOIR A

1. To designate the Henry Production Company, Inc.- Ronkartz No. 1 Well (SN 231250) as an alternate unit well for the NOD 1B RA SUC said well located approximately as shown on the plat attached hereto, in exception to the spacing provisions of Office of Conservation Order No. 423-K, effective March 1, 1959.
2. To permit the operator to produce the unit allowable from the unit well, the proposed alternate unit well, or from both wells, at its option.
3. Except to the extent contrary herewith, to continue in full force and effect the provisions of Office of Conservation Order No. 423-K, the unit created thereby, and applicable Statewide Orders.
4. To consider such other matters as may be pertinent.

The present unit well, the Henry Production Company, Inc. - Thevis No. 1 Well (SN70667), ceased to produce in the NOD 1B Sand in 1980. The proposed substitute unit well, therefore, is necessary to recover hydrocarbons within the existing unit which would otherwise be lost.

The NOD 1B Sand, Reservoir A, in the North Crowley Field, Acadia Parish, Louisiana, was fully defined in Office of Conservation Order No. 423-K, effective March 1, 1959.

There are attached hereto and made a part hereof plats identifying the subject units created by Conservation Order Nos. 423-J and 423-K, along with the location of the proposed alternate unit well and the location of the proposed substitute unit well. Pursuant to the Revised Rules of Procedure, a list of names and addresses of the Interested Owners, Interested Parties and Represented Parties to whom this application is being sent is being furnished only to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation. However, the list will be provided to any party requesting a copy. A diligent effort was made to ascertain the names and addresses of all Interested Owners, Interested Parties and Represented Parties as required by the Revised Rules of Procedure.

Finally there is enclosed our check on behalf of the applicant, Henry Production Company, Inc., in the sum of \$1,510.00 payable to the Office of Conservation and representing the required hearing application fee.

Sincerely,

LEON E. COMEAUX & ASSOCIATES

David Comeaux
