Dear Sir:

NELSON ENERGY, INC. ("Applicant"), hereby respectfully applies for a public hearing to consider evidence relative to the issuance of Orders pertaining to the following matters relating to the Upper Cotton Valley Formation, Reservoir A, and to the Lower Cotton Valley Formation, Reservoir A, in the Terryville Field, Claiborne and Lincoln Parishes, Louisiana:

1. To authorize Applicant to drill, designate and utilize a substitute unit well and an alternate unit well for UCV RA SUY and for LCV RA SUY at the locations shown on the attached plat, with the location for the proposed substitute unit well being in exception to the spacing provisions of the Office of Conservation Order No. 370-B series of Orders.

To find that each of the above described wells is necessary to efficiently and economically drain a portion of the Upper Cotton Valley Formation, Reservoir A, and the Lower Cotton Valley Formation, Reservoir A, underlying these units which cannot be efficiently and economically drained by any existing well within such units.
3. To permit the operator of UCV RA SUY and of LCV RA SUY to produce the allowables assigned to these units from either the substitute unit well, the alternate unit well or from a combination of such wells, at the option of the operator.
4. To discuss such other matters as may be appropriate and justified by the evidence presented at the hearing.

The Upper Cotton Valley Formation, Reservoir A, in the Terryville Field, Claiborne and Lincoln Parishes, Louisiana, was defined in Office of Conservation Order No. 370-B-7, effective February 18, 1982.
