Re: Alternate Unit Well Designations
Hosston Formation, Sand Unit B
Logansport Field, DeSoto Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **EOG RESOURCES, INC.** for the calling of public hearings after ten (10) days legal notice, to consider evidence relative to the issuance of an Order pertaining to the following matters:

1. To permit the applicant to drill, designate and utilize an additional alternate unit well for the HOSS SUB, namely, its H. E. Williams, et al 6 No. 1 Well, said well located in accordance with the spacing provisions of Office of Conservation Order No. 28-S-4, effective July 22, 1981, as shown on the plat attached hereto and made a part hereof.
2. To find that the proposed alternate unit well is necessary to efficiently and economically drain that portion of the reservoir covered by the HOSS SUB.
3. To continue in effect the existing designations and use of the current unit well and alternate unit wells for the HOSS SUB.
4. To permit the operator of the HOSS SUB to produce the unit allowable in accordance with the provisions of Office of Conservation Order No. 28-S-55, effective October 18, 1994 (at a rate equal to the combined rate at which the unit well and the alternate unit well or wells located on each unit are capable of efficiently producing).
5. Except to the extent herein set forth, to continue in full force and effect the provisions of Office of Conservation Order Nos. 28-R and 28-S, as amended and supplemented by the 28-S Series of Orders, the units created thereby, and applicable statewide orders.

6. To consider such other matters as may be pertinent.

The Hosston Zone, in Logansport Field, DeSoto Parish, Louisiana, was redefined in Office of Conservation Order No. 28-S, effective April 21, 1970.

The applicant is requesting permission to drill, designate and utilize an additional alternate unit well for the HOSS SUB at the location shown on the attached plat. This well will permit efficient and economic recovery of hydrocarbons underlying the unit, will not adversely affect the adjacent offsetting units, and is needed to satisfy the market demand for gas and condensate from the field.

Attached hereto and made a part hereof is a plat outlining the applicant's proposal, along with a list of the names and addresses of the Interested Owners, Represented Parties and Interested Parties to whom a copy of this application is being sent. Pursuant to the Revised Rules of Procedure, such list of parties is being furnished ONLY to the Commissioner of Conservation and to the District Manager of the Shreveport District of the Office of Conservation. However, the list of parties will be provided to any party requesting a copy of it. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Interested Parties and Represented Parties.

Finally, enclosed herewith is our check on behalf of the applicant in the amount of \$755.00 **made payable to the Office of Conservation** and representing the required hearing application fee.

Very truly yours,

LISKOW & LEWIS
