1. To create three (3) additional drilling and production units for the exploration for and production of gas and condensate from the Hosston Zone, Reservoir A, such units being shown on an attached plat.
2. To create three (3) additional drilling and production units for the exploration for and production of gas and condensate from the Cotton Valley Formation, Reservoir A, such units being shown on an attached plat.
3. To create six (6) additional drilling and production units for the exploration for and production of gas and condensate from the Lower Cotton Valley Zone, Reservoir A, such units being shown on an attached plat.
4. To force pool and integrate all separately owned tracts, mineral leases and other property interests within these proposed units in accordance with Section 10, Title 30, of the Louisiana Revised Statutes of 1950, with each tract sharing in unit production on a surface acreage basis of participation.
5. To designate a unit operator of, and a unit well for, each of the proposed units as may be appropriate.
6. To approve exceptions to the spacing provisions of Office of Conservation Order No. 361-A-1, effective October 1, 1972 (applicable to the Hosston Zone, Reservoir A), Office of Conservation Order No. 361-B, effective October 1, 1973 (applicable to the Cotton Valley Formation, Reservoir A), and of Office of Conservation Order No. 361-E, effective July 16, 1996 (applicable to

the Lower Cotton Valley Zone, Reservoir A), so as to permit the operator of existing units and proposed units covering Sections 20 and 21, Township 16 North, Range 13 West, Caddo Parish, Louisiana, to drill the unit wells for these units at the locations shown on the attached plats.

7. To authorize the downhole combination of production from the Lower Cotton Valley Zone, Reservoir A; the Cotton Valley Formation, Reservoir A; and from the Hosston Zone, Reservoir A; or any combination thereof, in the wellbore of any well drilled on the proposed additional units for the Lower Cotton Valley Zone, Reservoir A, in which the interests in the units from which production is to be combined downhole are identical.

8. To redefine the Lower Cotton Valley Zone, Reservoir A, in the Elm Grove Field, insofar and only insofar as to the additional units proposed herein, as being that gas and condensate bearing interval encountered between the depths of 10,030 feet and 12,100 feet (electrical log measurements) in the J-W Operating Company--Cohort Energy et al. 22 No. 1 Well, located in Section 22, Township 16 North, Range 13 West, Caddo Parish, Louisiana.

9. To extend, except as in conflict herewith, the provisions of Office of Conservation Order No. 361-A-1, effective October 1, 1972, as amended and supplemented, and of all applicable Statewide Orders, to the proposed additional units for the Hosston Zone, Reservoir A.
