RE: HEARING APPLICATION
Hosston Formation, Reservoir A
Cotton Valley Formation, Reservoir A
CV RA SU67 and HOSS RA SU61
Elm Grove Field
Caddo Parish, Louisiana
Our File No. 430071.0155

Dear Sir:

On behalf of QUESTAR EXPLORATION AND PRODUCTION COMPANY, application is hereby made for a public hearing to receive evidence concerning the issuance of an order pertaining to the following matters relating to the Cotton Valley Formation and Hosston Formation, Reservoirs A, in the Elm Grove Field, Caddo Parish, Louisiana:

1. To permit the applicant to drill, designate and utilize one (1) additional alternate unit well for CV RA SU67 and HOSS RA SU61, at the location shown on the plats attached hereto, in exception to the well spacing provisions of Office of Conservation Order No. 361-A-1, effective October 1, 1972 and Order No. 361-B, effective October 1, 1973;
2. To explicitly find that the proposed alternate unit wells are necessary to drain a portion of the Cotton Valley Formation and Hosston Formation, Reservoirs A, in the Elm Grove Field underlying CV RA SU67 and HOSS RA SU61, which cannot be efficiently and economically drained by any existing well in such units.
3. To consider such other matters as may be appropriate and justified by the evidence presented at the hearing.

The Cotton Valley Formation, Reservoir A, in the Elm Grove Field, Caddo, Bossier and Webster Parishes, Louisiana, was fully defined in Office of Conservation Order No. 361-B, effective October 1, 1973, and was further defined in subsequent Orders of the 361-B Series.
