Dear Commissioner Welsh:

1. To establish rules and regulations and create a single drilling and production unit for the exploration for and production of gas and condensate, such unit to be designated 3200 RA SUA;
2. To force pool and integrate all separately owned tracts, mineral leases and other property interests within the proposed unit, with each tract sharing in unit production on a surface acreage basis of participation;
3. To provide that any future wells drilled to the 3200' Zone, Reservoir A, within or outside of the proposed unit, should be located in accordance with the spacing provisions of Statewide Order 29-E;

4. To designate a unit well for the proposed unit, if appropriate;
5. To designate Aspect Energy, LLC as the operator of the proposed unit, if appropriate;
6. To provide that the Commissioner of Conservation should be authorized to reclassify the reservoir by supplemental order without the necessity of a public hearing if the producing characteristics of the reservoir change and evidence to justify such reclassification is submitted to and accepted by the Commissioner of Conservation; and
7. To consider such other matters as may be appropriate and justified by the evidence presented at the hearing.

The 3200' Zone, Reservoir A in the Delarge Field, Terrebonne Parish, Louisiana, is hereby defined as being that gas and condensate bearing zone encountered between the depths of 2,830 feet and 3,500 feet, electrical log measurements, in the Fohs Oil Company – Buckley-Mahler No. 1 Well, located in Section 25, Township 19 South, Range 16 West, Terrebonne Parish, Louisiana.
