## APPLICATION

7097-68442

Honorable James H. Welsh  
Commissioner of Conservation  
Louisiana Office of Conservation  
P.O. Box 94275  
Baton Rouge, LA 70804-4275

RE: Haynesville Zone, Reservoir A  
Pleasant Hill Field  
Sabine Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **CHESAPEAKE OPERATING, INC.**, for the calling of a public hearing, after thirty (30) days legal notice, to consider evidence relative to the issuance of Orders pertaining to the following matters related to the **Haynesville Zone, Reservoir A**, in the **Pleasant Hill Field**, Sabine Parish, Louisiana, to-wit:

1. To establish rules and regulations and create a single drilling and production unit for the exploration for and production of gas and condensate from the Haynesville Zone, Reservoir A, such unit to be designated HA RA SUA;
2. To force pool and integrate all separately owned tracts, mineral leases and other property interests within the proposed unit, with each tract sharing in unit production on a surface acreage basis of participation;

3. To designate a unit well for the proposed unit, if appropriate;
4. To designate Chesapeake Operating, Inc. as the operator of the proposed unit, if appropriate;
5. To provide that any future well drilled to the Haynesville Zone, Reservoir A, should be located no closer than 330 feet from any unit boundary and no closer than 660 feet to any other well completed in, drilling to, or for which a permit has been granted to drill to said reservoir;
6. To provide that with respect to the unit well, if designated, and any future horizontal well drilled to the Haynesville Zone, Reservoir A, in the proposed unit, where the horizontal portion of the well is cased and cemented back above the top of the Haynesville Zone, Reservoir A, the distance to any unit boundary or other well completed in, drilling to, or for which a permit has granted to drill, to said reservoir, will be calculated based on the distance to the nearest perforations in the well, and not based on the penetration point or terminus;
7. To provide that the Commissioner of Conservation should be authorized to reclassify the reservoir by supplemental order without the necessity of a public hearing if the producing characteristics of the reservoir change and evidence to justify such reclassification is submitted to and accepted by the Commissioner of Conservation; and
8. To consider such other matters as may be appropriate and justified by the evidence presented at the hearing.

The Haynesville Zone, in the Pleasant Hill Field, is hereby defined as being that gas and condensate bearing zone encountered between the depths of 11,135 feet and 13,140 feet (electrical log measurements) in the Philips Petroleum Company-Martin B No. 1 Well, located in Section 32, Township 11 North, Range 10 West, Sabine Parish, Louisiana.

The pre-application conference tentatively scheduled for September 4<sup>th</sup>, 2008, **WILL NOT BE HELD**, as it was not requested within the delays provided for by the Rules of Procedure; therefore, no opposition to this Application at the hearing is anticipated.

Pertinent data relating to the proposed application can be obtained, **AT THE COST OF THE REQUESTING PARTY**, by contacting David Comeaux, with Leon Comeaux & Associates, 305 La Rue France, Lafayette, LA 70508 (337) 233-9839.
