Re: Alternate unit well designation
LCV RA SUSS
Vernon Field
Jackson Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **EXCO PARTNERS OPERATING PARTNERSHIP LP**, for the calling of a public hearing, after ten (10) days legal notice, to consider evidence relative to the issuance of Orders pertaining to the following matters relating to the Lower Cotton Valley Formation, Reservoir A, in the Vernon Field, Jackson Parish, Louisiana, for which rules and regulations were established and drilling and production units were created for the exploration for and production of gas and condensate by the 798-B Series of Office of Conservation Orders, including the unit designated **LCV RA SUSS**:

1. To permit the applicant to drill, designate and utilize its **Stewart Harrison 29 No. 1 Well** as an additional alternate unit well for the LCV RA SUSS at the location shown on the plat attached hereto and made a part hereof, in exception to the spacing provisions of the 798-B Series of Office of Conservation Orders.
2. To permit the operator to produce the unit allowable for the LCV RA SUSS in accordance with the provisions of Office of Conservation Order No. 798-B-4, effective June 14, 1994.
3. To find that the proposed alternate unit well is necessary to efficiently and economically drain that portion of the reservoir covered by the LCV RA SUSS.

August 19, 2008

4. To continue in effect the existing designation and use of the present unit and alternate unit wells for the aforementioned unit.
5. Except to the extent herein set forth, to continue in full force and effect the provisions of the 798-B Series of Office of Conservation Orders, the units created thereby, and applicable statewide orders.
6. To consider such other matters as may be pertinent.

The Lower Cotton Valley Formation, Reservoir A, in the Vernon Field, Jackson Parish, Louisiana, was redefined in Office of Conservation Order No. 798-B-23, effective January 22, 2002.

The applicant is requesting permission to drill, designate and utilize its Stewart Harrison 29 No. 1 Well as an additional alternate unit well for the LCV RA SUSS at the location shown on the attached plat. This well will permit efficient and economic recovery of hydrocarbons underlying the aforementioned unit, will not adversely affect the adjacent offsetting units, and is needed to satisfy the market demand for gas and condensate from the field.

Attached hereto and made a part hereof is a plat outlining the applicant's proposal along with a list of the names and addresses of the Interested Owners, Represented Parties and Interested Parties to whom a copy of this application is being sent. Pursuant to the Revised Rules of Procedure, such list of parties is being furnished only to the Commissioner of Conservation and to the District Manager of the Shreveport District of the Office of Conservation. However, the list of parties will be provided to any party requesting a copy of it. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Interested Parties and Represented Parties.

Finally, enclosed herewith is our check on behalf of the applicant in the amount of \$755.00 **made payable to the Office of Conservation** and representing the required hearing application fee.

Very truly yours,

LISKOW & LEWIS

Richard W. Revels, Jr.
