Honorable James H. Welsh
Commissioner of Conservation
Office of Conservation
Post Office Box 94275
Baton Rouge, LA 70804-4275

Re: 8,500' Zone, Reservoir G
FAUSSE POINTE FIELD
Iberia Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **CYPRESS PRODUCTION, INC.** for the calling of a public hearing, after legal notice, to consider evidence relative to the issuance of an order pertaining to the following matters relating to the 8,500' Zone, Reservoir G, in the Fausse Pointe Field, Iberia Parish, Louisiana:

1. To establish rules and regulations and to create a single drilling and production unit for the exploration for and production of oil and gas from the 8,500' Zone, Reservoir G, in the Fausse Pointe Field, Iberia Parish, Louisiana, said proposed unit to be designated 8500 RG SUA, as shown on the plat attached hereto and made a part hereof;
2. To force pool and integrate all separately owned tracts, mineral leases and other property interests within the proposed unit with each tract sharing in unit production on a surface acreage basis of participation;
3. To provide that any future or existing wells drilled to the 8,500' Zone, Reservoir G, within or outside of the unit created herein, should be exempt from the spacing provisions of LAC 43:XIX.1901 et seq. (Statewide Order No. 29-E);
4. To designate Cypress Production, Inc. as operator of the proposed 8500 RG SUA and to designate the Cypress Production, Inc. – J. R. H. Provost No. 6 Well as the unit well for the unit created herein, in exception to the spacing provisions of LAC 43:XIX.1901 et seq. (Statewide Order No. 29-E);
5. To allow the Commissioner of Conservation to reclassify the reservoir by supplemental order, without the necessity of a public hearing, should the producing characteristics of the reservoir change and evidence to justify such reclassification is submitted to and accepted by the Commissioner of Conservation; and
6. To consider such other matters as may be pertinent to the 8,500' Zone, Reservoir G.

The 8,500' Zone, Reservoir G, in the Fausse Pointe Field, Iberia Parish, Louisiana, is hereby defined as being that oil and gas bearing zone encountered between the measured depths of 7,884 feet and 8,092 feet (electrical log measurements; 7,850 feet and 8,058 feet true vertical log depths) in the Cypress Production, Inc. – J. R. H. Provost No. 6 Well, located in Section 27, Township 11 South, Range 8 East, Iberia Parish, Louisiana.

Pertinent data, including well logs, not available from the Office of Conservation may be obtained **AT THE COST OF THE REQUESTING PARTY** from James F. Hardwick & Associates, 1101 S. Hugh Wallis Road, Suite 101, Lafayette, Louisiana 70508, Telephone Number (337) 232-7756.

Pursuant to the Rules of Procedure, a pre-application conference was held in Lafayette, Louisiana on August 20, 2008, at which the parties named on the attached list were in attendance. The conference was opened by Mr. James F. Hardwick on behalf of the applicant who explained the bases for the unit being proposed. Questions were asked and answered. Mr. David Sturlese on behalf of Planters Lumber/Provost presented a counterplan which differed from the applicant's proposal in the placement of the northern, western and eastern unit boundaries. Further discussions led to a resolution of differences, and the compromise proposal is shown on the attached plat. The conference was then adjourned. Since the applicant has resolved differences with the only party which presented a counterplan, we expect no opposition at the hearing to be scheduled in this matter.

Attached hereto and made a part hereof are a plat outlining the applicant's proposal, the conference attendance list and a list of the names and addresses of the Interested Owners, Represented Parties, and Interested Parties to whom a copy of this application is being mailed. Pursuant to the Revised Rules of Procedure, the list of parties is being furnished only to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation; however, the list of parties will be furnished to any party requesting a copy. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Represented Parties, and Interested Parties. Also enclosed is a check made payable to the Office of Conservation submitted on behalf of the applicant, representing the required hearing application fee.

Very truly yours,

James F. Hardwick

JFH/th
