RE: HEARING APPLICATION
Haynesville Zone, Reservoir A
Thorn Lake Field
Red River Parish, Louisiana
Our File No. 430071.159

Dear Sir:

On behalf of QUESTAR EXPLORATION AND PRODUCTION COMPANY, application is hereby made for a public hearing to receive evidence concerning the issuance of an order pertaining to the following matters relating to the Haynesville Zone, Reservoir A, in the Thorn Lake Field, Red River Parish, Louisiana:

1. To create three (3) additional drilling and production units (to be designated as HA RA SUH, HA RA SUI, and HA RA SUJ), as shown on the attached plat, for the exploration for and production of gas and condensate from the Haynesville Zone, Reservoir A, in the Thorn Lake Field, Red River Parish, Louisiana;
2. To force pool and integrate all separately owned tracts, mineral leases, and other property interests within the proposed units, with each tract sharing in unit production on a surface acreage basis of participation.
3. To designate a unit operator and unit wells for the proposed units, if appropriate.
4. Except to the extent contrary herewith, to extend the provisions of Office of Conservation Order No. 1145-B, effective July 15, 2008, to the proposed units.
5. To provide that with respect to future horizontal wells drilled within the proposed units and to the Haynesville Zone, Reservoir A, in the Thorn Lake Field, where the horizontal portion of the well is cased and cemented back above the top of the Haynesville Zone, Reservoir A, the distance to any unit boundary and between wells will be calculated based on the distance to the nearest perforation in the well, and not based on the penetration point or terminus;
6. To consider such other matters as may be appropriate and justified by the evidence presented at the hearing.

The Haynesville Zone, Reservoir A, in the Thorn Lake Field, Red River Parish, Louisiana, is defined in Office of Conservation Order No. 1145-B, effective July 15, 2008.
