Dear Commissioner Welsh:

The Marginulina Texana Zone, Reservoir A, in the Edgerly Field, Calcasieu Parish, Louisiana, was previously defined in Office of Conservation Order No. 168-D-1, effective July 6, 2005.

The applicant is requesting permission to drill, designate and utilize an alternate unit well for the aforementioned unit at the location shown on the attached plat. This well will permit efficient and economic recovery of hydrocarbons underlying the unit, will not adversely affect the adjacent offsetting units, and is needed to satisfy the market demand for gas and condensate from the field.

Attached hereto and made a part hereof is a plat outlining the applicant's proposal along with a list of the names and addresses of the Interested Owners, Represented Parties and Interested Parties to whom a copy of this application is being sent. Pursuant to the Revised Rules of Procedure, such list of parties is being furnished ONLY to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation. However, the list of parties will be provided to any party requesting a copy of it. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Interested Parties and Represented Parties.

Finally, enclosed herewith is our check on behalf of the applicant in the amount of \$755.00 made payable to the Office of Conservation and representing the required hearing application fee.

Sincerely,

Richard W. Revels, Jr.
