Re: Substitute Unit Well at an Exceptional Location
E-2 Sand, Wilcox Formation
Lismore Landing Field (6036)
Concordia Ph, LA

Dear Commissioner Welsh:

Application is hereby made on behalf of CTR Oil, Inc., PO Box 659, Jonesville, Louisiana 71343, for the calling of a public hearing, after legal notice, to consider evidence relative to the issuance of an Order covering the following matters pertaining to the E-2 Sand, Wilcox Formation, Lismore Landing Field, Concordia Parish, Louisiana:

1. To approve a substitute unit well at an exceptional location as to the unit boundary for the production of oil and gas from the E-2 SUA sand unit in the Lismore Landing Field, Concordia Parish, Louisiana, as shown on the attached plat and made a part hereof;
2. To name the CTR Oil, Inc. - E-2 SUA; Rabb No. 1 Well as the substitute unit well at an exceptional location in Section 16, T6N-R7E;
3. To consider and cover such other matters as the Commissioner of Conservation may deem pertinent and appropriate; and
4. To continue in force and effect the remaining provisions of the office of Conservation Order No. 259-A.

The E-2 Sand, Wilcox Formation, in the Lismore Landing Field was fully defined in Office of Conservation Order No. 259-A, effective July 1, 1963, which created fourteen sand units including the E-2 Sand SUA. Order No. 259-A requires wells drilled to the E-2 Sand, Wilcox Formation, to be located 330 feet from unit lines and 660 feet between any other well completed in this zone. The proposed location of the substitute unit well does not meet these requirements.

Hon. James H. Welsh

Page 2

The existing unit well, the Okkatahula, Inc. - E-2 SUA; Simmons No. 3 (SN 77506) has been plugged and abandoned. The applicant will show by exhibits and testimony that a substitute unit well, at an exceptional location, is needed to drain a portion of the unit which the former unit well did not drain and that waste will occur by leaving hydrocarbons in the ground that otherwise may be produced.

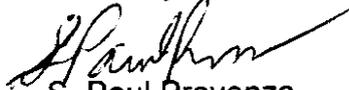

As seen on the attached plat, the proposed CTR Oil, Inc. - E-2 SUA; Rabb No. 1 is located 100 feet from the east boundary line and 100 feet from the south boundary line of the E-2 SUA, as defined and governed by Order No. 259-A, effective July 1, 1963.

The pertinent data pertaining to this application, including electric logs, may be obtained, AT THE COST OF THE REQUESTING PARTY, from Jay Stewart, 311 Texas Street, Vidalia, Louisiana, telephone number (601) 807-1799.

The subject matter of this application does not require a pre-hearing conference. Attached hereto and made a part hereof, is a plat showing the proposed substitute unit well and list of the Interested Owners, Interested Parties and Represented Parties to whom this notice is being sent. Pursuant to the Revised Rules of Procedure, the list of Parties is being sent to the Commissioner of Conservation and to the District Manager of the Monroe District Office of Conservation. A reasonable effort has been made to ascertain the names and addresses of all parties to whom this notice is being sent.

Enclosed please find my check in the amount of \$755.00 payable to the Office of Conservation to cover the applicable fee for the Hearing.

Sincerely,

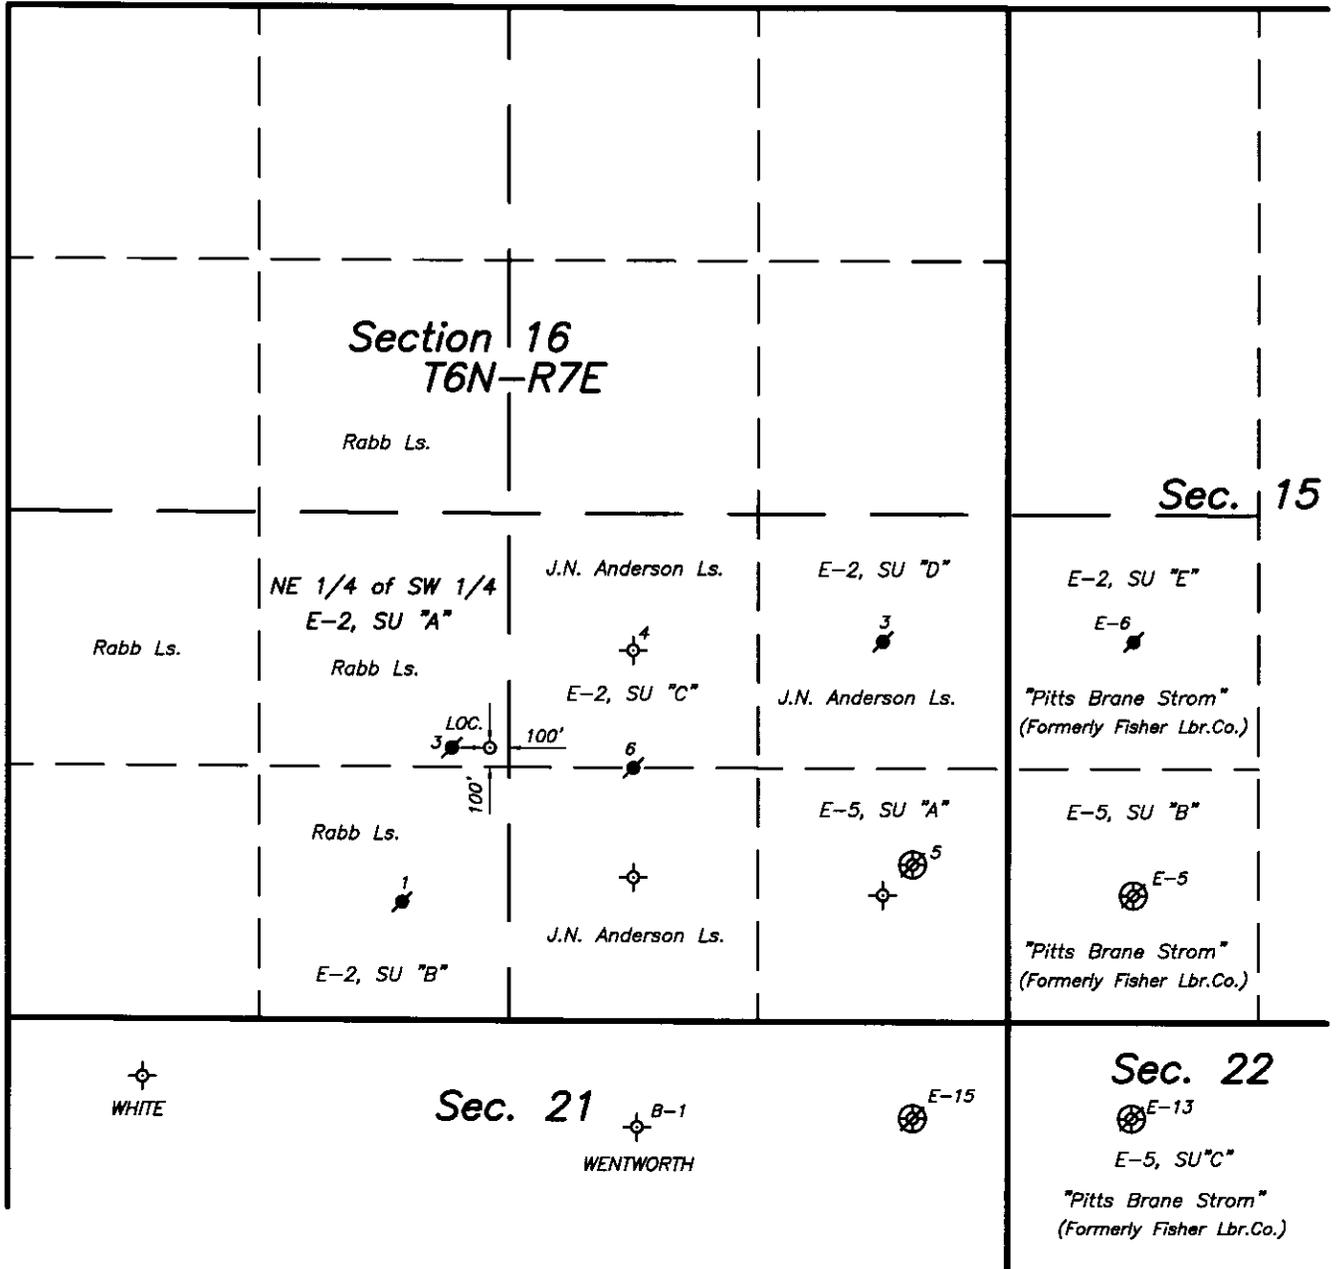

S. Paul Provenza

SPP/ms
