Our File No. 430071.0109

Dear Sir:

On behalf of QUESTAR EXPLORATION AND PRODUCTION COMPANY, application is hereby made for a public hearing to receive evidence concerning the issuance of an order pertaining to the following matters relating to the Hosston Formation, Cotton Valley Formation and the Lower Cotton Valley Formation, Reservoirs A, in the Elm Grove Field, Bossier Parish, Louisiana:

1. To permit the applicant to drill, designate and utilize five (5) additional alternate unit wells for HOSS RA SU4, CV RA SU 4 and LCV RA SUU, at the locations shown on the plats attached hereto;
2. To grant such exceptions to the well spacing provisions of Order No. 361-A-1, effective October 1, 1972, Order No. 361-B, effective October 1, 1973, and Order No. 361-E, effective July 16, 1996, as may be necessary with respect to the proposed alternate unit wells;
3. To explicitly find that the proposed alternate unit wells are necessary to drain a portion of the Hosston Formation, Cotton Valley Formation and the Lower Cotton Valley Formation, Reservoirs A, in the Elm Grove Field underlying HOSS RA SU4, CV RA SU 4 and LCV RA SUU, respectively, which cannot be efficiently and economically drained by any existing well in such units.
4. To consider such other matters as may be appropriate and justified by the evidence presented at the hearing.

The Hosston Formation, Reservoir A, in the Elm Grove Field, Caddo, Bossier and Webster Parishes, Louisiana, was fully defined in Office of Conservation Order No. 361-A-1, effective October 1, 1972, and was further defined in subsequent Orders of the 361-A Series.

The Lower Cotton Valley Formation, Reservoir A, in the Elm Grove Field, Bossier Parish, Louisiana, was fully redefined in Office of Conservation Order No. 361-E-99, effective May 20, 2003, insofar as to LCV RA SUU.
