Re: Reynolds Coal Seam Zone Unit 2  
NORTHEAST CUBA CHURCH FIELD  
Ouachita and Caldwell Parishes, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **SAMSON CONTOUR ENERGY E&P, LLC** for the calling of a public hearing, after legal notice, to consider evidence relative to the issuance of an order pertaining to the following matters:

1. To create one (1) additional coal seam natural gas unit for the exploration for and production of coal seam natural gas, pursuant to the provisions of La. R.S. 30:5.2, from the Reynolds Coal Seam Zone, in Northeast Cuba Church Field, Ouachita Parish, Louisiana, said unit designated NECC CSNG UNIT 2, as shown on the plat attached hereto and made a part hereof.
2. To force pool and integrate all separately owned tracts, mineral leases and other property interests within the proposed unit, with each separate tract sharing in unit production on a surface acre basis of participation.
3. To extend to the proposed additional unit all pertinent provisions of Office of Conservation Order No. 1502-B, effective December 6, 2007.
4. To designate Samson Contour Energy E&P, LLC as operator of the proposed unit.
5. To consider such others matters as may be pertinent.

February 18, 2008

The Reynolds Coal Seam Zone, in the Northeast Cuba Church Field, Ouachita Parish, Louisiana, was previously defined in Office of Conservation Order No. 1502-B, effective December 6, 2007.

Any pertinent data, including well logs, not available from the Office of Conservation, may be obtained **AT THE COST OF THE REQUESTING PARTY** from Joe B. Adams, 21010 Vermont St., Livingston, Louisiana 70754, Telephone Number (225) 686-2355.

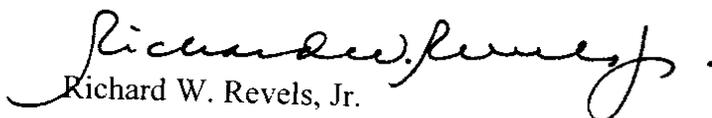

Pursuant to the Rules of Procedure, a pre-application conference was held in Lafayette, Louisiana on January 9, 2008, at which the parties named on the attached list were in attendance. The conference was opened by representatives of the applicant who explained the bases for the additional unit being requested. Several questions were asked and answered. At this same conference, additional units in Riverton Field were also discussed. Representatives of Southwest Energy presented a counterplan. The conference was adjourned without a resolution of differences. As the result of additional discussions since the conference, Samson and Southwestern have resolved differences, resulting in the revised unit shown on the plat attached hereto, and the decision not to go forward with the proposed unit in Riverton Field located just south of this unit proposal. It is our understanding that Southwestern may make a unit proposal affecting that acreage at some future time. We are not aware of remaining opposition to the single unit proposal. Should an interested party wish to consult regarding the revised proposal, the undersigned should be notified.

Attached hereto and made a part hereof is a revised plat outlining the applicant's proposal, the conference attendance list and the list of the names and addresses of the Interested Owners, Represented Parties, and Interested Parties to whom a copy of this application is being mailed. Pursuant to the Revised Rules of Procedure, the list of parties is being furnished ONLY to the Commissioner of Conservation and to the District Manager of the Monroe District of the Office of Conservation. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Represented Parties and Interested Parties.

Finally, enclosed is our check in the amount of \$755.00 made payable to the Office of Conservation submitted on behalf of the applicant representing the hearing application fee.

Sincerely,

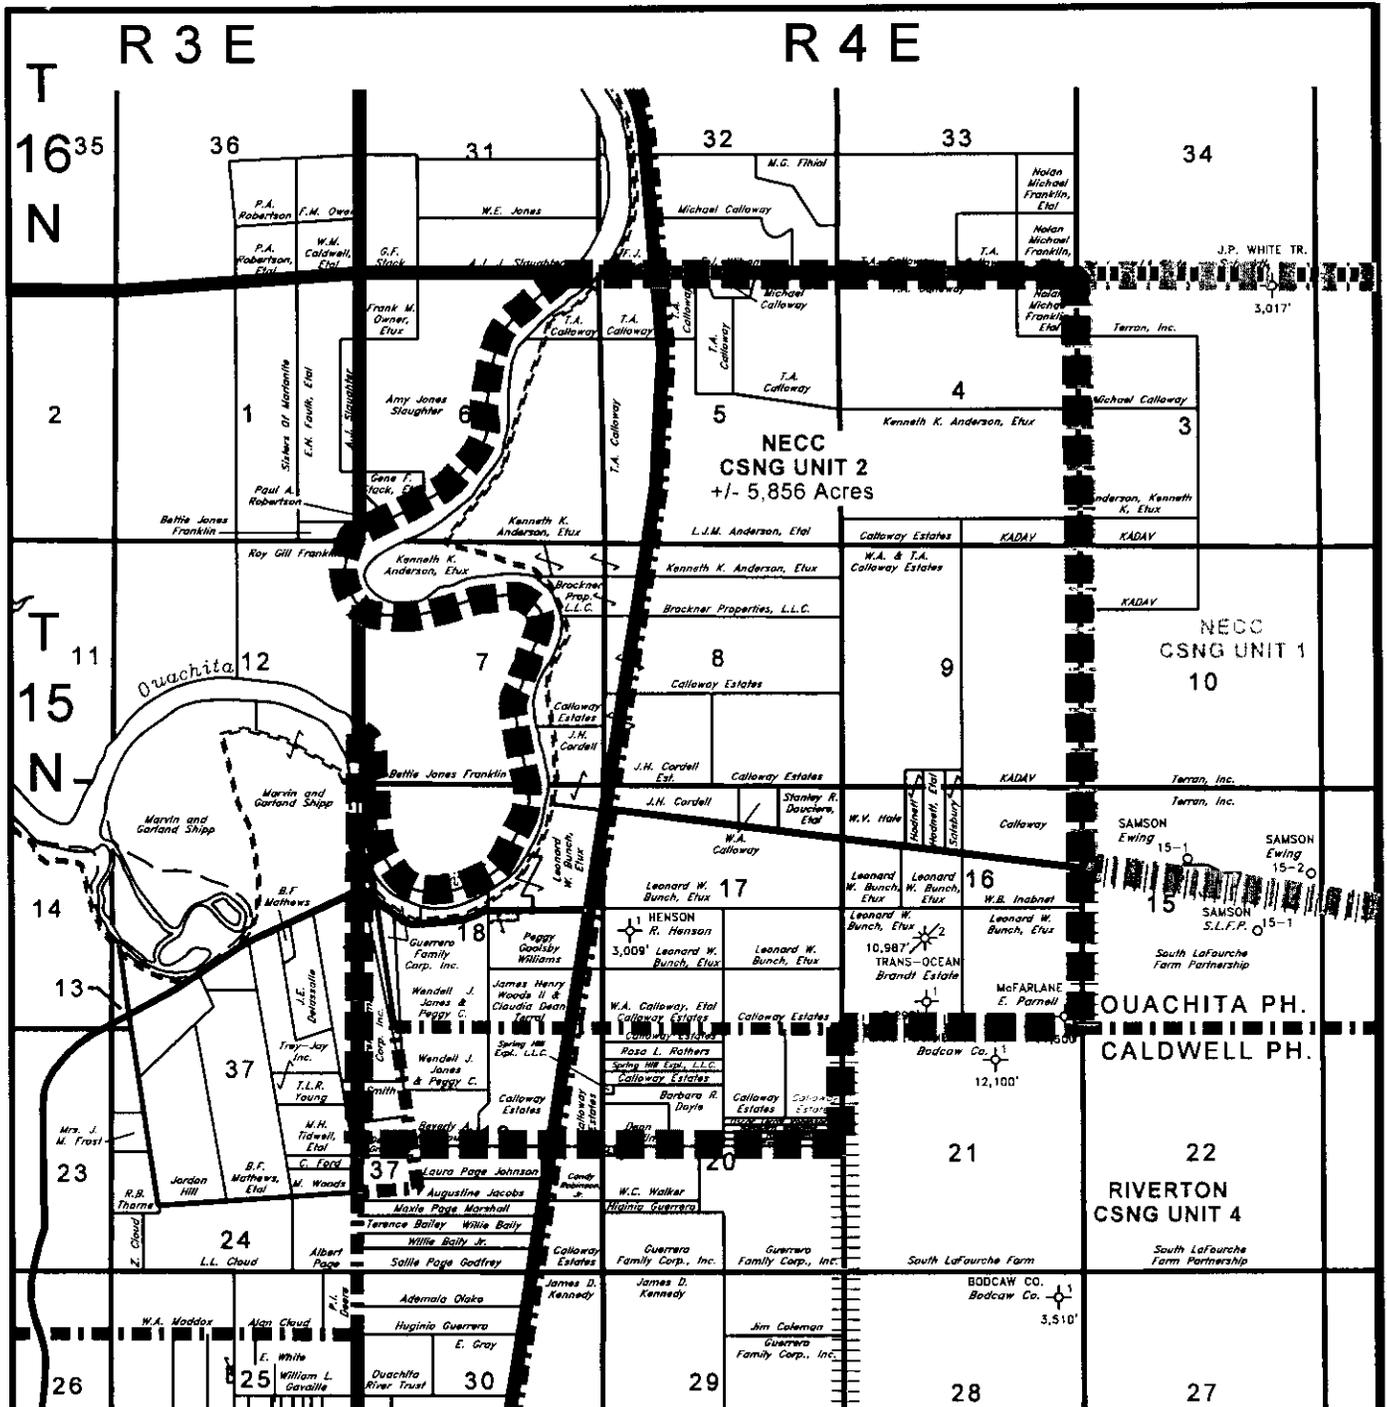

LISKOW & LEWIS

  
Richard W. Revels, Jr.
