Re: Creation of unit
Camerina-Lower Bath Zone, Reservoir A
Midland Field
Acadia Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **BLACK POOL ENERGY, LP** for the calling of a public hearing, after legal notice, to consider evidence relative to the issuance of an order pertaining to the following matters:

1. To establish rules and regulations and to create a single drilling and production unit for the exploration for and production of gas and condensate from the Camerina-Lower Bath Zone, Reservoir A, in the Midland Field, Acadia Parish, Louisiana, said unit to be designated CAM-L BATH RA SUA.
2. To force pool and integrate all separately owned tracts, mineral leases and other property interests within the proposed unit with each tract sharing in unit production on a surface acreage basis of participation.
3. To provide that any wells drilled to the Camerina-Lower Bath Zone, Reservoir A, within the unit created herein, should be located no closer than 100 feet to the nearest unit line in exception to the spacing provisions of LAC 43:XIX.1901 et seq. (Statewide Order No. 29-E).
4. To provide that the Commissioner of Conservation should be authorized to reclassify the proposed sand and reservoir by supplemental order without the necessity of a public hearing if the producing characteristics of the reservoir change and evidence to justify such reclassification is submitted to and accepted by the Commissioner of Conservation.
5. To consider such other matters as may be pertinent.

April 25, 2008

The Camerina-Lower Bathysiphon Zone, Reservoir A, in the Midland Field, is hereby defined as being the stratigraphic equivalent of that gas and condensate bearing sand encountered between the depths of 11,070 feet and 11,398 feet (electrical log measurements) in the Franks Petroleum, Inc., et al - Wild No. 1 Well, located in Section 17, Township 10 South, Range 1 West, Acadia Parish, Louisiana.

Any pertinent data, including well logs, not available from the Office of Conservation, may be obtained **AT THE COST OF THE REQUESTING PARTY** from Louis Gilbert & Associates, 3636 North Causeway Blvd., Suite 204, Metairie, LA 70002, Telephone Number (504)834-8112.

The spacing tolerance is being requested due to the difficulties entailed in precisely controlling the proposed directional well in a unit the size of the proposed unit.

Pursuant to the Rules of Procedure, pre-application notice was given; however, no request for the conference was received. Therefore, the conference tentatively scheduled for May 7, 2008, **WILL NOT BE HELD.**

Attached hereto and made a part hereof is a plat outlining the applicant's unit proposal along with a list of the names and addresses of the Interested Owners, Represented Parties, and Interested Parties to whom a copy of this application is being sent. Pursuant to the Revised Rules of Procedure, such list of parties is being furnished ONLY to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation; however, the list of parties will be furnished to any party requesting copies. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Represented Parties and Interested Parties.

Finally, enclosed is our check in the amount of \$755.00 made payable to the Office of Conservation submitted on behalf of the applicant representing the hearing application fee.

Sincerely,

Richard W. Revels, Jr.
