Re: APPLICATION FOR PUBLIC HEARING.

Hosston Formation, Reservoir A; and Cotton Valley
Formation, Reservoir A; WEST SIMSBORO FIELD,
Lincoln Parish, Louisiana.

Dear Sir:

INDIGO MINERALS LLC ("Applicant") hereby respectfully applies for a public hearing to consider evidence relative to the issuance of Orders pertaining to the following matters relating to the Hosston Formation, Reservoir A, and to the Cotton Valley Formation, Reservoir A, in the West Simsboro Field, Lincoln Parish, Louisiana:

1. To permit Applicant to drill, designate and utilize an additional alternate unit well for HOSS RA SUH, and for CV RA SUF, at the location shown on the attached plats, in exception to the spacing provisions of Office of Conservation Order No. 327-B-2, effective August 1, 1980 (applicable to the Hosston Formation, Reservoir A), and of Office of Conservation Order No. 327-D, effective August 1, 1980 (applicable to the Cotton Valley Formation, Reservoir A).
2. To find that the proposed well is necessary to efficiently and economically drain a portion of the Hosston Formation, Reservoir A, underlying HOSS RA SUH, and a portion of the Cotton Valley Formation, Reservoir A, underlying CV RA SUF, which cannot be efficiently and economically drained by any existing well on these units.
3. To permit the operator of HOSS RA SUH and CV RA SUF to produce the allowables assigned to these units from either the unit or substitute unit well, from any alternate unit well, or from any combination of such wells, at the option of the operator.
4. To discuss such other matters as may be pertinent to this application.

The Hosston Formation, Reservoir A, in the West Simsboro Field, Lincoln Parish, Louisiana, was initially defined in Office of Conservation Order No. 327-B-2, effective August 1, 1980, and was redefined in Order No. 327-B-6, effective March 4, 1986.

The Cotton Valley Formation, Reservoir A, in the West Simsboro Field, Lincoln Parish, Louisiana, was defined in Office of Conservation Order No. 327-D, effective August 1, 1980.
