Re: **Revised Application**  
8000' Zone, Reservoir B  
Docket No 08-999  
Pine Prairie Field  
Evangeline Parish, Louisiana  
Applicant: Midstates Petroleum Corporation

Dear Commissioner Welsh:

Reference is made to our June 2, 2008 application on behalf of Midstates Petroleum Corporation, regarding the above referenced reservoir, the hearing for which has been docketed for Tuesday, July 22, 2008. A pre-application conference was not held in this matter, as none was requested.

After the application was filed, we discovered an omission. The applicant hereby revises its application to include the following paragraph and to renumber the other paragraphs accordingly:

5. To permit the downhole combination of the 8000' Zone, Reservoir B in the proposed unit designated 8000 RB SUB with the Upper Wilcox Zone, Reservoir C in the unit designated U WX RC SUY established by Office of Conservation Order No. 32-K-11, effective October 17, 2006, in any existing or future wells that may be drilled within the referenced units.

The above-referenced revision has no effect on the proposed unit outlines as presented in the June 2, 2008 application. Except as amended hereby, Midstates Petroleum Corporation's original application shall continue as written. Should anyone receiving this revised application wish to consult regarding the revised proposal, please contact the undersigned. Copies of this revised application are being mailed to the Commissioner of Conservation, the District Manager of the Lafayette District of the Office of Conservation and to all parties previously notified in this matter.

Very truly yours,

James F. Hardwick
