Re: Haynesville Zone, Reservoir A
Trenton Field
Haynesville Zone, Reservoir A
Ten Mile Bayou Field
DeSoto Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **EOG RESOURCES, INC.** for the calling of a public hearing after ten (10) days legal notice, to consider evidence relative to the issuance of Orders pertaining to the following matters:

1. To permit the applicant to drill, designate and utilize 40 horizontal alternate unit wells for the HA RA SUA through HA RA SUG, HA RA SUL, HA RA SUR and HA RA SUS, in Trenton Field, at the locations shown on the plat attached hereto and made a part hereof, which locations are in compliance with the spacing provisions of Office of Conservation Order No. 1199-E, effective September 16, 2008.
2. To permit the applicant to drill, designate and utilize 9 horizontal alternate unit wells for the HA RA SUB and HA RA SUC, in Ten Mile Bayou Field, at the locations shown on the plat attached hereto and made a part hereof, which locations are in compliance with the spacing provisions of Office of Conservation Order No. 572-B, effective November 18, 2008.
3. To find that the proposed alternate unit wells are necessary to efficiently and economically drain a portion of the reservoirs covered by the units which cannot be so drained by any existing well in the units.
4. To permit the operator of the aforementioned units to produce the unit allowable from the existing unit well, the proposed alternate unit wells, or in any combination, at its option.
5. Except to the extent herein set forth, to continue in full force and effect the provisions of Office of Conservation Order No. 1199-E, effective September 16, 2008, as amended and supplemented by the 1199-E Series of Orders, and Office of Conservation Order No. 572-B, effective November 18,

2008, as amended and supplemented by the 572-B Series of Orders, the units created thereby for the Haynesville Zone, Reservoir A, in Trenton and Ten Mile Bayou Fields, respectively, and applicable statewide orders.

6. To consider such other matters as may be pertinent.

The Haynesville Zone, Reservoir A, in Trenton Field, DeSoto Parish, Louisiana, was previously defined in Office of Conservation Order No. 1199-E, effective September 16, 2008.

The Haynesville Zone, Reservoir A, in Ten Mile Bayou Field, DeSoto Parish, Louisiana, was previously defined in Office of Conservation Order No. 572-B, effective November 18, 2008.

The applicant is requesting permission to drill, designate and utilize alternate unit wells for the aforementioned units at the locations shown on the attached plats. These wells will permit efficient and economic recovery of hydrocarbons underlying the units, will not adversely affect the adjacent offsetting units, and are needed to satisfy the market demand for gas and condensate from the field.

Attached hereto and made a part hereof are plats outlining the applicant's proposals, along with a list of the names and addresses of the Interested Owners, Represented Parties and Interested Parties to whom a copy of this application is being sent. Pursuant to the Revised Rules of Procedure, such list of parties is being furnished ONLY to the Commissioner of Conservation and to the District Manager of the Shreveport District of the Office of Conservation. However, the list of parties will be provided to any party requesting a copy of it. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Interested Parties and Represented Parties.

Finally, enclosed herewith is our check on behalf of the applicant in the amount of \$9,060.00 **made payable to the Office of Conservation** and representing the required hearing application fee.

Very truly yours,

LISKOW & LEWIS

Richard W. Revels, Jr.
