Dear Commissioner Welsh:

Application is hereby made on behalf of **ENCANA OIL & GAS (USA), INC.** for the calling of public hearings, after legal notice, to consider evidence relative to the issuance of orders pertaining to the following matters:

Lower Cotton Valley Formation, Reservoir A

1. To create seven (7) additional drilling and production units for the exploration for and production of gas and condensate from the Lower Cotton Valley Formation, Reservoir A, in the Sligo Field, Bossier Parish, Louisiana, said units to be designated LCV RA SUOO through LCV RA SUUU, all as shown on the plat attached hereto and made a part hereof.
2. To force pool and integrate all separately owned tracts, mineral leases and other property interests within each of the proposed units with each tract sharing in unit production on a surface acreage basis of participation.
3. Except to the extent contrary herewith, to extend to the proposed additional units all pertinent provisions of Office of Conservation Order No. 8-K, effective October 16, 1990, as amended and supplemented by the 8-K Series of Orders and applicable statewide orders.
4. To consider such others matters as may be pertinent.

The Lower Cotton Valley Formation, Reservoir A, in the Sligo Field, Bossier Parish, Louisiana, was previously defined in Office of Conservation Order No. 8-K, effective October 16, 1990.

Haynesville Zone, Reservoir A

1. To create seven (7) additional drilling and production units for the exploration for and production of gas and condensate from the Haynesville Zone, Reservoir A, in the Sligo Field, Bossier Parish, Louisiana, said units to be designated HA RA SUS through HA RA SUY, as shown on the plat attached hereto and made a part hereof.
2. To force pool and integrate all separately owned tracts, mineral leases and other property interests within the proposed units with each tract sharing in unit production on a surface acreage basis of participation.
3. To amend the spacing provisions of Officer of Conservation Order No. 8-N, effective September 30, 2008, to provide that horizontal wells drilled to the Haynesville Zone, Reservoir A, where the horizontal portion of the well is cased and cemented back above the top of the Haynesville Zone, Reservoir A, the distance to any unit boundary or offset well will be calculated based on the distance to the nearest perforations in the well, and not based on the penetration point or terminus.

December 11, 2008

4. Except as otherwise provided, to extend to the proposed additional units all pertinent provisions of Office of Conservation Order No. 8-N, effective September 30, 2008, and applicable Statewide Orders.
5. To consider such others matters as may be pertinent.
