Honorable James H. Welsh
Commissioner of Conservation
Office of Conservation
P. O. Box 94275
Baton Rouge, LA 70804-4275

Re: Homeseekers C Sand, Reservoir D
Homeseekers C-1 Zone, Reservoir B
Rayne Field
Acadia Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **BTA OIL PRODUCERS, LLC** for the calling of a public hearing, after legal notice, to consider evidence relative to the issuance of orders pertaining to the following matters:

1. To establish rules and regulations and to create a single drilling and production unit for the exploration for and production of gas and condensate from the following intervals: Homeseekers C Sand, Reservoir D, and Homeseekers C-1 Zone, Reservoir B, all in the Rayne Field, Acadia Parish, Louisiana, said units to be designated as shown on the plats attached hereto and made a part hereof.
2. To force pool and integrate all separately owned tracts, mineral leases and other property interests within the proposed units with each tract sharing in unit production on a surface acreage basis of participation.
3. To provide that any wells drilled to the aforementioned intervals, within or outside each of the units created herein, should be located in accordance with the provisions of LAC 43:XIX.1901 et seq. (Statewide Order No. 29-E).
4. To provide that the Commissioner of Conservation should be authorized to reclassify the aforementioned intervals by supplemental order without the necessity of a public hearing if the producing characteristics of such reservoir change and evidence to justify such reclassification is submitted to and accepted by the Commissioner of Conservation.
5. To consider such others matters as may be pertinent.

The Homeseekers C Sand, in Rayne Field, Acadia Parish, Louisiana, was defined in Office of Conservation Order No. 307-V-1, effective December 3, 1991.

The Homeseekers C-1 Zone, Reservoir B, in Rayne Field, is hereby defined as being that gas and condensate bearing sand encountered between the depths of 12,292 feet and 12,770 feet (electrical log measurements) in the Great Southern Oil & Gas Co. – Sydney Broussard No. 1 Well, located in Section 12, Township 9 South, Range 2 East, Acadia Parish, Louisiana.

Any pertinent data, including well logs, not available from the Office of Conservation, may be obtained **AT THE COST OF THE REQUESTING PARTY** from Louis Gilbert & Associates, 3636 North Causeway Blvd., Suite 204, Metairie, LA 70002, Telephone Number (504)834-8112.

Pursuant to the Rules of Procedure, a pre-application conference was held in Lafayette, Louisiana on November 4, 2009. The conference was opened by representatives of the applicant who explained the bases for the applicant's proposals. Several questions were asked and answered. Two landowner representatives presented counterplans. The conference was then adjourned. The applicant and landowner representatives have now resolved differences, and the attached plats reflect the compromise that has been made. The applicant is hopeful that this compromise will result in an uncontested hearing.

Attached hereto and made a part hereof are plats outlining the applicant's proposals, the conference attendance list and a list of the names and addresses of the Interested Owners, Represented Parties, and Interested Parties to whom a copy of this application is being mailed. Pursuant to the Revised Rules of Procedure, such list of parties is being furnished ONLY to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation; however, the list of parties will be furnished to any party requesting copies. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Represented Parties and Interested Parties.

Finally, enclosed is our check in the amount of \$1,510.00 made payable to the Office of Conservation submitted on behalf of the applicant representing the hearing application fee.

Very truly yours,

LISKOW & LEWIS

Richard W. Revels, Jr.
