RE: HEARING APPLICATION  
Haynesville Zone, Reservoir A  
Longwood Field  
Caddo Parish, Louisiana  
Our File No. 230593.237

Dear Sir:

On behalf of **Comstock Oil & Gas - Louisiana, LLC**, application is hereby made for a public hearing to receive evidence concerning the issuance of an order pertaining to the following matters relating to the Haynesville Zone, Reservoir A, in the Longwood Field, Caddo Parish, Louisiana:

1. To create three (3) additional drilling and production units (to be designated as HA RA SUX, HA RA SUY and HA RA SUZ), as shown on the plat attached hereto, for the exploration for and production of gas and condensate from the Haynesville Zone, Reservoir A, in the Longwood Field, Caddo Parish, Louisiana.
2. To force pool and integrate all separately owned tracts, mineral leases, and other property interests within each of the proposed units, with allocation of production to the tracts within such units to be on the basis of surface acreage.
3. To designate a unit operator and unit wells for said units, if appropriate.
4. To redefine the Haynesville Zone, Reservoir A, in the Longwood Field, Caddo Parish, Louisiana, INsofar AND ONLY INsofar AS TO the proposed HA RA SUX thru HA RA SUZ, as that gas and condensate bearing zone between the depths of 9702 feet and 11,149 feet (electric log measurements) in the Exco-Wages 12 No. 1 Well located in Section 12, Township 18 North, Range 16 West, Caddo Parish, Louisiana.
5. Except to the extent contrary herewith, to extend the provisions of Office of Conservation Order No. 123-K, effective June 17, 2008, to the proposed units.
6. To provide that, with respect to future horizontal wells drilled to the Haynesville Zone, Reservoir A, in the proposed units and in the Longwood Field, where the horizontal portion of the well is cased and cemented back above the top of the Haynesville Zone, Reservoir A, the distance to any unit boundary and between wells will be calculated based on the distance to the nearest perforation in the well, and not based on the penetration point or terminus.
7. To authorize the downhole combination of production from the Haynesville Zone, Reservoir A and the Cotton Valley Formation, Reservoir A, in the wellbore of any well drilled on HA RA SUX and existing CV RA SUD; HA RA SUY and existing CV RA SUM; and HA RA SUZ and existing CV RA SUL, respectively, in the Longwood Field, Caddo Parish, Louisiana, as to which the acreage and ownership are identical.
8. To explicitly find that said downhole combination of production is in the interest of conservation, will prevent waste and will maximize the efficient and economic recovery of gas and condensate from such zones and reservoirs.

9. To consider such other matters as may be appropriate and justified by the evidence presented at the hearing.

The Haynesville Zone, Reservoir A, in the Longwood Field, Caddo Parish, Louisiana, was defined in Office of Conservation Order No. 123-K, effective June 17, 2008, but shall be redefined as set forth above.

The Cotton Valley Formation, Reservoir A, in the Longwood Field, was defined in Office of Conservation Order No. 123-A-2, effective September 20, 1978.
