Baton Rouge, LA 70804-4275

Re: JUR RB SUK
Bracky Branch Field
Red River Parish, Louisiana

Dear Commissioner Welsh:

1. To the extent necessary, to grant a spacing exception to allow the applicant to continue to utilize its Colbert Lands 16H No. 1 Well as unit well for the JUR RB SUK, in Bracky Branch Field, Red River Parish, Louisiana, at the location shown on the plat attached hereto and made a part hereof, which location is possibly in exception to the spacing provisions of Office of Conservation Order 917-J, effective August 1, 2006.
2. To grant a spacing exception to allow the applicant to continue to utilize its Colbert Lands LLC, et al 16H No. 2 Well as alternate unit well for the JUR RB SUK, in Bracky Branch Field, Red River Parish, Louisiana, at the location shown on the plat attached hereto and made a part hereof, in exception to the spacing provisions of Office of Conservation Order 917-J, effective August 1, 2006.
3. To find that these wells are necessary to efficiently and economically drain a portion of the reservoir covered by the unit which cannot be so drained by any existing well within such unit.
4. To permit the operator to produce the unit allowable from the proposed unit well, the proposed alternate unit well, or both, at its discretion.
5. Except to the extent contrary herewith, to continue in full force and effect the provisions of Office of Conservation Order No. 917-J, effective August 1, 2006, as amended and supplemented by the 917-J Series of Orders, the units created thereby, and applicable Statewide Orders.
6. To consider such other matters as may be pertinent.

May 8, 2009

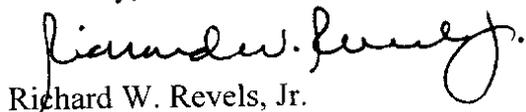

The Jurassic Zone, Reservoir B, in Bracky Branch Field, Red River Parish, Louisiana, was previously defined in Office of Conservation Order No. 917-J, effective August 1, 2006, and was redefined in Order No. 917-J-2, effective June 17, 2008.

The Colbert Lands 16H No. 1 Well currently serves as unit well of the JUR RB SUK. It has come to the attention of the applicant that the location of this well may be in exception to the applicable spacing provisions. By Office of Conservation Order No. 917-J-3, effective December 16, 2008, the Colbert 16H No. 2 Well was approved as an alternate unit well for the JUR RB SUK. Because the "as-drilled" location is different from that previously approved by Conservation and requires a spacing exception, approval for this as-drilled location is being requested at a hearing.

Attached hereto and made a part hereof is a plat outlining the applicant's proposal along with a list of the names and addresses of the Interested Owners, Represented Parties and Interested Parties to whom a copy of this application is being sent. Pursuant to the Revised Rules of Procedure, such list of parties is being furnished ONLY to the Commissioner of Conservation and to the District Manager of the Shreveport District of the Office of Conservation; however, the list of parties will be provided to any party requesting a copy of it. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Represented Parties and Interested Parties.

Finally, enclosed herewith is our check on behalf of the applicant in the amount of \$755.00 **made payable to the Office of Conservation** representing the required hearing application fee.

Sincerely,

Richard W. Revels, Jr.
