Re: Haynesville Zone, Reservoir A
Benson Field
DeSoto Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **CHESAPEAKE OPERATING, INC.**, for the calling of a public hearing, after thirty (30) days legal notice, to consider evidence relative to the issuance of Orders pertaining to the following matters related to the **Haynesville Zone, Reservoir A**, in the **Benson Field**, DeSoto and Sabine Parishes, Louisiana, for which rules and regulations were established and a pattern of drilling and production units was created by Office of Conservation Order No. 496-L, effective November 18, 2008, as amended and supplemented by the 496-L Series of Orders, to-wit:

1. To create seven (7) additional drilling and production units for the exploration for and production of gas and condensate from the Haynesville Zone, Reservoir A, such units to be designated HA RA SUE, HA RA SUF, HA RA SUG, HA RA SUH, HA RA SUI, HA RA SUL, and HA RA SUM;

2. To redefine the Haynesville Zone, in the Benson Field, INSO FAR AND ONLY INSO FAR as the proposed units referenced herein are concerned, in accordance with the DEFINITION section hereof;
3. To force pool and integrate all separately owned tracts, mineral leases and other property interests within the proposed units, with each tract sharing in unit production on a surface acreage basis of participation;
4. To designate Chesapeake Operating, Inc. as the operator of, and a unit well for each of the proposed units, if appropriate;
5. That with respect to horizontal wells drilled to the Haynesville Zone, Reservoir A, in the proposed units, where the horizontal portion of the well is cased and cemented back above the top of the Haynesville Zone, Reservoir A, the distance to any unit boundary and any offset wells(s) should be calculated based on the distance to the nearest perforation in the well, and not based on the penetration point or terminus;
6. To extend to the proposed units, to the extent not inconsistent herewith, all pertinent provisions of Office of Conservation Order No. 496-L, effective November 18, 2008, as amended and supplemented by the 496-L Series of Orders, and all applicable Statewide Orders; and
7. To consider such other matters as may be appropriate and justified by the evidence presented at the hearing.

The Haynesville Zone, in the Benson Field, was previously defined in Office of Conservation Order No. 496-L, effective November 18, 2008, and is hereby redefined, INSO FAR AND ONLY INSO FAR as the proposed units referenced herein are concerned as being the stratigraphic equivalent of that gas and condensate bearing zone encountered between the depths of 11,900 feet and 13,395 feet (electric log measurements) in the SWEPI LP - Olympia Minerals 26 No. 1 Well, located in Section 26, Township 9 North, Range 12 West, Sabine Parish, Louisiana.

The pre-application conference tentatively scheduled for May 21, 2009, **WILL NOT BE HELD**, as it was not requested within the delays provided for by the Rules of Procedure; therefore, no opposition to this Application at the hearing is anticipated.

Pertinent data relating to the proposed application can be obtained, **AT THE COST OF THE REQUESTING PARTY**, by contacting David Comeaux, with Leon Comeaux & Associates, 305 La Rue France, Lafayette, LA 70508 (337) 233-9839.
