7. With respect to future horizontal wells drilled to the Haynesville Zone, Reservoir A, in the proposed unit, where the horizontal portion of the well is cased and cemented back above the top of the Haynesville Zone, Reservoir A, the distance to any unit boundary and between wells will be calculated based on the distance to the nearest perforation in the well, and not based on the penetration point or terminus.

8. Except to the extent contrary herewith, to extend the provisions of Office of Conservation Order No. 813-B, effective November 6, 2007, as amended and supplemented by the 813-B Series of Orders, to the proposed unit.
