Re: APPLICATION FOR PUBLIC HEARING.

Haynesville Zone, Reservoir B; Cotton Valley Formation, Reservoir A; and Hosston Formation, Reservoir A; BETHANY-LONGSTREET FIELD, DeSoto Parish, Louisiana.

Dear Sir:

BEUSA ENERGY, INC. ("Applicant"), hereby respectfully applies for a public hearing to consider evidence relative to the issuance of Orders pertaining to the following matters relating to the Haynesville Zone, Reservoir B; to the Cotton Valley Formation, Reservoir A; and to the Hosston Formation, Reservoir A; all in the Bethany-Longstreet Field, DeSoto Parish, Louisiana:

1. To create four (4) additional drilling and production units for the exploration for and production of gas and condensate from the Haynesville Zone, Reservoir B, such units being shown on attached plats and being designated HA RB SUYY, HA RB SUZZ, HA RB SU53 and HA RB SU54.
2. To create one (1) additional drilling and production unit for the exploration for and production of gas and condensate from the Cotton Valley Formation, Reservoir A, such unit being shown on an attached plat and being designated CV RA SU123.
3. To force pool and integrate all separately owned tracts, mineral leases and other property interests within each of the proposed additional units in accordance with Section 10, Title 30, of the Louisiana Revised Statutes of 1950, with each tract sharing in unit production on a surface acreage basis of participation.
4. To designate a unit operator of, and unit well for, each of the proposed additional units as may be appropriate.
5. To provide that for any horizontal well drilled within the proposed units for the Haynesville Zone, Reservoir B, where the horizontal portion of the well is cased and cemented back above the top of the Haynesville Zone, the distance to any unit boundary or offset well will be calculated based on the distance to the nearest perforation in the well and not based on the penetration point or terminus of the well in the Haynesville Zone.

6. To permit Applicant to combine downhole production from the Haynesville Zone, Reservoir B; the Cotton Valley Formation, Reservoir A; and from the Hosston Formation, Reservoir A; or any combination thereof, in any well drilled on the units proposed herein for the Haynesville Zone, Reservoir B, in which the ownership interests in the units from which production is to be combined downhole are identical.

7. To extend, except as in conflict herewith, the provisions of Office of Conservation Order No. 289-R-1, effective April 29, 2008, as supplemented and amended by the Order No. 289-R series of Orders, to the proposed additional units for the Haynesville Zone, Reservoir B.

8. To extend, except as in conflict herewith, the provisions of Office of Conservation Order No. 289-J, effective March 1, 1974, as supplemented and amended by the Order No. 289-J series of Orders, to the proposed additional unit for the Cotton Valley Formation, Reservoir A.

9. To discuss such other matters as may be pertinent.

The Haynesville Zone, Reservoir B, in the Bethany-Longstreet Field, DeSoto Parish, Louisiana, was defined in Office of Conservation Order No. 289-R-8, effective July 2, 2008, as to certain units, which definition will be applicable to the additional units proposed herein.
