Re: REVISION OF INITIAL PROPOSALS AND
APPLICATION FOR PUBLIC HEARING.

Haynesville Zone, Reservoir A, LAKE BISTINEAU
FIELD, Bienville Parish, Louisiana.

Dear Sir:

XTO ENERGY, INC. ("Applicant"), hereby respectfully applies for a public hearing to consider evidence relative to the issuance of an Order pertaining to the following matters relating to the Haynesville Zone, Reservoir A, in the Lake Bistineau Field, Bienville Parish, Louisiana:

1. To create five (5) additional drilling and production units for the exploration for and production of gas and condensate from the Haynesville Zone, Reservoir A, such units being shown on the attached plat and being designated HA RA SUF, HA RA SUT, HA RA SUU, HA RA SUV and HA RA SUW.
2. To force pool and integrate all separately owned tracts, mineral leases and other property interests within each of the proposed additional units in accordance with Section 10, Title 30, of the Louisiana Revised Statutes of 1950, with each tract sharing in unit production on a surface acreage basis of participation.
3. To designate a unit operator of, and unit well for, each of the proposed additional units as may be appropriate.
4. To provide that with respect to any horizontal well drilled to the Haynesville Zone within the proposed units, where the horizontal portion of the well is cased and cemented back above the top of the Haynesville Zone, the distance to any unit boundary and offset well will be determined based on the distance to the nearest perforation in the well, and not based on the penetration point or terminus of the well in the Haynesville Zone.
5. To extend, except as in conflict herewith, the provisions of Office of Conservation Order No. 287-F, effective December 16, 2008, as amended and supplemented by the Order No. 287-F series of Orders, to the proposed additional units.
6. To consider such other matters as may be pertinent to these proposals.

The Haynesville Zone, Reservoir A, in the Lake Bistineau Field, Bienville Parish, Louisiana, was defined in Office of Conservation Order No. 287-F, effective December 16, 2008.

Any pertinent data concerning this application will be available for inspection at the offices of Louis Gilbert & Associates, Inc., 3636 N. Causeway Blvd., Suite 204, Metairie, Louisiana 70002-7216. Any person wishing to inspect any such data should call Mr. Louis Gilbert at (504) 834-8112 during normal business hours in order to arrange a date and time for such inspection. A copy of

any such pertinent data which is not otherwise available from the records of the Louisiana Office of Conservation can be obtained from Applicant at the expense of the requesting party.

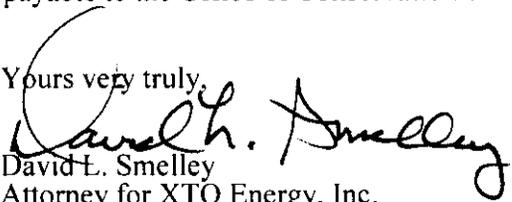

By letter dated June 5, 2009, Applicant gave notice, in accordance with the Revised Rules of Procedure, of its intention to apply for a public hearing concerning these proposals and a pre-application conference with respect to Applicant's proposals was thereafter held beginning at 1:30 o'clock p.m. on July 2, 2009, in Shreveport, Louisiana. This was a joint conference as it also involved the proposals set forth in a pre-application notice filed by Petrohawk Operating Company dated June 9, 2009, involving a portion of the area affected by the proposals of Applicant. Attached is a list of the names and addresses of those persons present at the conference. The purpose of the conference was explained, after which David Smelley and Louis Gilbert presented the bases for the unitization plan of Applicant. Questions were asked and answered. Bill Fleming and Craig Barclay then presented the unitization plan of Petrohawk, and again questions were asked and answered. The differences in the respective plans of Applicant and Petrohawk were not reconciled at the conference. However, subsequent to the conference, and as a result of discussions at the conference, Applicant has decided to revise its unit proposals so as to reconcile the units proposed by Applicant with the unit proposal of Petrohawk. Attached is a plat showing the revised unit proposal of Applicant. As a result of this revised unit proposal, it is not anticipated that there will be opposition at the hearing to either the revised proposals of Applicant or to the unit proposal of Petrohawk.

Pursuant to the Revised Rules of Procedure, Applicant has made a reasonable effort to obtain the names and addresses of all Interested Owners, Represented Parties and Interested Parties to whom notice of this application is being sent and has attached hereto a list of the names and addresses of such parties. A copy of the unit plat showing the revised unit proposal is enclosed herewith, and a copy of this letter and of the attached plat is being sent to the District Manager of the Shreveport District of the Office of Conservation and to the Interested Owners, Represented Parties and Interested Parties as shown on the attached list.

Applicant will provide for posting of a copy of the Legal Notice of this hearing, and of the enclosed plat, at a prominent place in the area affected and will cause publication of the Legal Notice in a newspaper published in the general area of Lake Bistineau Field, all in accordance with the Revised Rules of Procedure. Furthermore, Applicant will mail a copy of the Legal Notice to all Interested Owners, Represented Parties and Interested Parties promptly upon receipt of the Legal Notice from the Commissioner.

Finally, enclosed herewith is our check payable to the Office of Conservation covering the application fee.

Yours very truly,

David L. Smelley
Attorney for XTO Energy, Inc.
