Re: Issuance of drilling permit
Petro-Hunt, L.L.C. – Houma Community Well No. 1
T RB SUA
Hollywood Field
Terrebonne Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **PETRO-HUNT, L.L.C.** for the calling of a public hearing, after ten (10) days legal notice, to consider evidence relative to the issuance of an order pertaining to the following matters in the Hollywood Field, Terrebonne Parish, Louisiana:

1. To approve a request for the issuance of a drilling permit for the Petro-Hunt, L.L.C. – Houma Community No. 1 Well and to allow the applicant to drill, designate and utilize said well as unit well for the T RB SUA, created by Office of Conservation Order No. 276-O-4, effective May 18, 2010, in exception to the provisions of La. R.S. 30:28(D) (such well being located within 500 feet from residential structures not owned by the applicant, his lessor, or other predecessor in interest), as shown on the plat attached hereto and made a part hereof.
2. Except to the extent contrary herewith, to confirm and continue in full force and effect the provisions of Office of Conservation Order No. 276-O-4, effective May 18, 2010, applicable statewide orders, and the unit created thereby.
3. To consider such other matters relating to the subject well for the T RB SUA as may be appropriate and justified by the evidence presented at the hearing.

The T Sand, Reservoir B, in the Hollywood Field, Terrebonne Parish, Louisiana was defined in Office of Conservation Order No. 276-O-4, effective May 18, 2010.

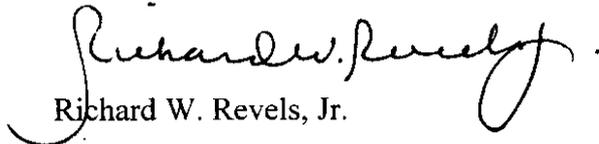

August 27, 2010

Attached hereto and made a part hereof is a plat showing the surface and bottom hole locations of the proposed unit well and a 500' radius around the proposed surface location. Also attached is a list of the names and addresses of the owners of structures within the 500' radius and the local governing authorities to whom a copy of this application is being sent. Pursuant to the Revised Rules of Procedure, the list of parties is being furnished only to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation. However, the list of parties will be provided to any party requesting a copy of it. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Interested Parties and Represented Parties.

The applicant has obtained the consent from most, but not all, owners of structures within the 500' radius and desires to drill a well to test the Southdown and T Sands. Because the applicant has been unable to secure waivers from all owners, this matter must be considered at a public hearing before a drilling permit may be issued. Enclosed is our check in the amount of \$755.00 made payable to the Office of Conservation submitted on behalf of the applicant representing the hearing application fee.

Sincerely,

LISKOW & LEWIS
