**RE: H ZONE OF THE WILCOX FORMATION  
WEST CATAHOULA LAKE FIELD  
LASALLE PARISH, LOUISIANA**

**APPLICATION FOR PUBLIC HEARING**

Dear Sir:

Application is hereby made on behalf of Axis Onshore, LP, P.O. Box 507, Vidalia, Louisiana 71343, for the calling of a public hearing, after legal notice, to consider evidence relative to the issuance of an order covering the following matters pertaining to the H Zone, Wilcox Formation, West Catahoula Lake Field, LaSalle Parish, Louisiana.

- 1) To approve an Alternate Unit Well at an exceptional location for the production of oil and gas from the H Zone SU39 in the West Catahoula Lake Field, LaSalle Parish, Louisiana as shown on the attached plat and made a part hereof.
- 2) To name the Axis Onshore, LP – H Zone SU39; Axis Onshore, LP well No. 7 as the Alternate Unit Well.
- 3) To consider and cover such other matters as the Commissioner of Conservation may deem pertinent and appropriate.

The H Zone, Wilcox Formation, in the West Catahoula Lake Field was fully defined in Office of Conservation Order No. 1298, effective March 11, 1986, and created the unit now known as the H Zone SU39. Order No. 1298 requires wells drilled to the H Zone Sand, Wilcox Formation to be located 330 feet from unit lines and 660 feet between wells. The proposed location of the Alternate Unit Well does not meet these requirements. The Axis Allen No. 3 is producing from the H Zone Sand and is only 450 feet from the proposed alternate Unit Well.

The Axis Allen No. 4 produces from the A Zone sand and Hunt Allen No. 2 produces from the First Wilcox Formation.

Honorable James Welch  
Commissioner of Conservation  
West Catahoula Lake Field  
January 6, 2010

---

The existing unit well, the Axis Onshore, LP, H Zone SU39; Jack Allen No. 3 SN236681, has declined in production and the applicant will show by exhibits and testimony that an Alternate Unit Well is needed to drain a portion of the unit the existing unit well has not or is not capable of draining and that waste will occur by leaving hydrocarbons in the ground that otherwise may be produced.

The pertinent data pertaining to this application, including electric Logs, may be obtained, AT THE COST OF THE REQUESTING PARTIES, from Axis Onshore, LP, P.O. Box 507, Vidalia, Louisiana 71373, telephone number (318) 336-8991.

The subject matter of this application does not require a pre-hearing conference.

Attached hereto and made a part hereof, is a plat showing the proposed Alternate Unit Well and list of the Interested Owners, Interested Parties and Represented Parties to whom this notice is being sent. Pursuant to the Revised Rules of Procedure, the list of Parties is being sent to the Commissioner of Conservation and to the District Manager of the Monroe District Office of Conservation. However, any party requesting such list will be provided a copy. A reasonable effort has been made to ascertain the names and addresses of all parties to whom this notice is being sent.

Attached hereto is our check in the amount of \$755.00, made payable to the Office of Conservation to cover the applicable fee for the hearing.

With kind regards, I am

Sincerely,

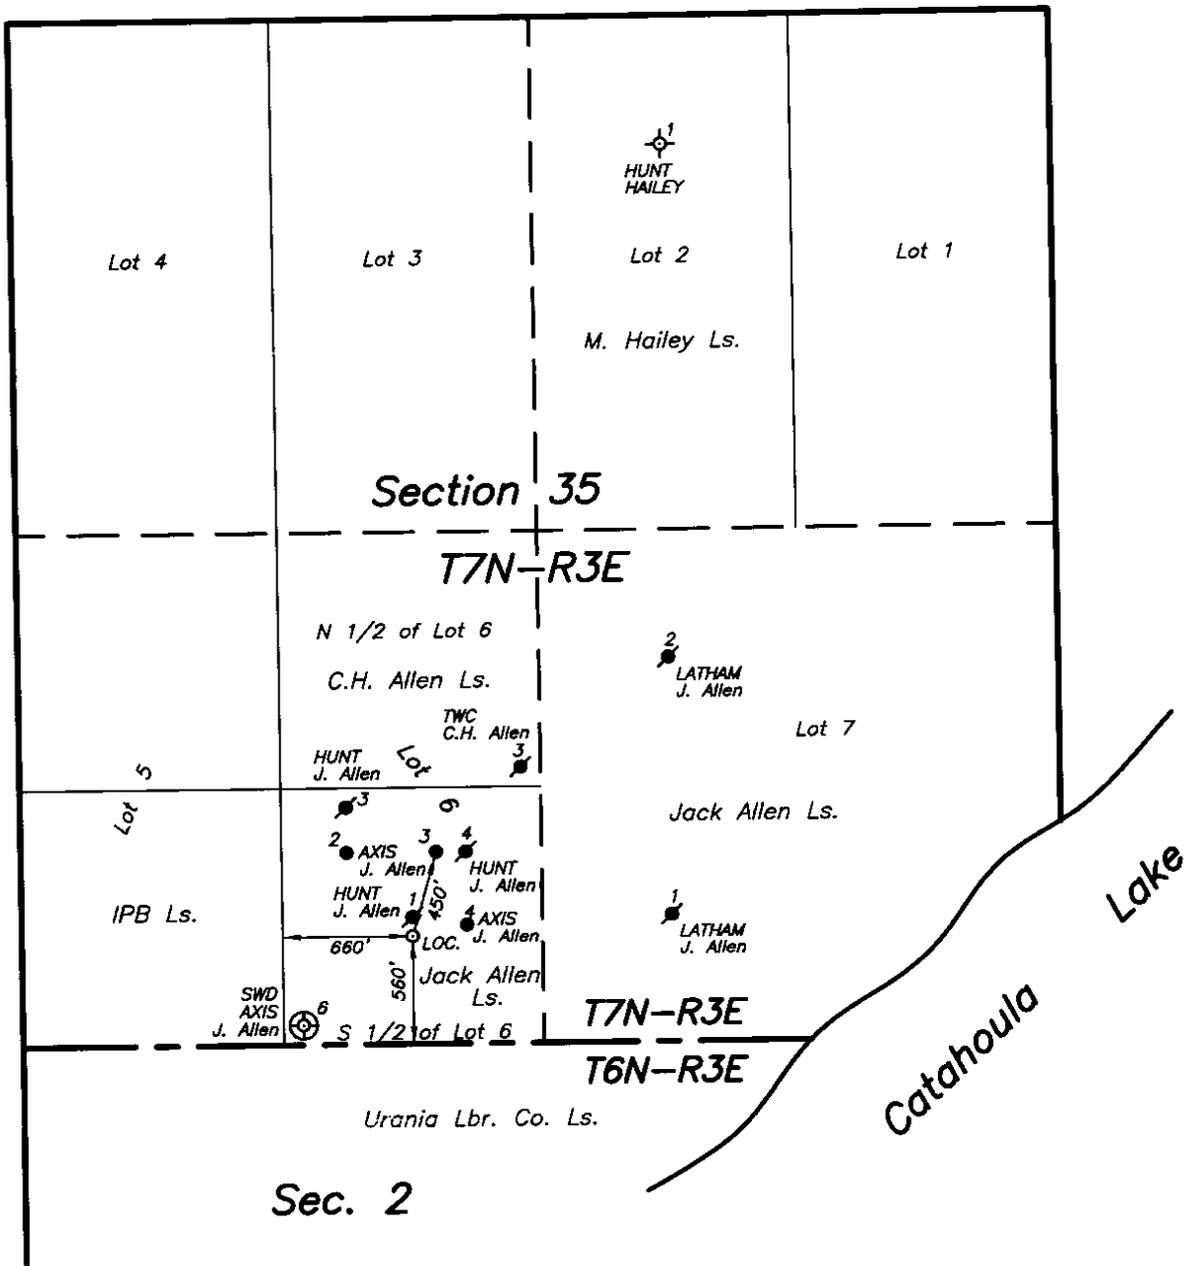

---

H. James Lossin, Sr.
